# Applied Psycholinguistics

## Editor

Martha Crago, *Dalhousie University, Canada*

*Applied Psycholinguistics* publishes original research papers on the psychological processes involved in language. It examines language development and disorders in adults and children with and without developmental disabilities. Articles in *Applied Psycholinguistics* address the nature, acquisition, and impairments of language expression and comprehension, including writing and reading. This journal gathers together the best work from a variety of fields including linguistics, psychology, reading, education, language learning, sociology, speech and hearing, and neurology. In addition, issues include reviews of important new books, problem-oriented reviews of important or emergent areas, discussions of previously published papers, and methodological notes.

# Bilingualism: Language and Cognition

## Editors

Jubin Abutalebi, Università Vita-Salute San Raffaele, Italy;  
Harald Clahsen, Potsdam Research Institute for Multilingualism, Germany

*Bilingualism: Language and Cognition* is an international peer-reviewed journal focusing on bilingualism from a cognitive science perspective. The aims of the journal are to promote research on the bilingual person and to encourage debate in the field. The domains covered are the following: bilingual language competence, perception and production, bilingual language acquisition in children and adults, neurolinguistics of bilingualism (in normal and brain-damaged populations), and non-linguistic cognitive processes in bilinguals. *Bilingualism* carries articles and research notes on all aspects of the bilingual person, and is published three times a year.

# Behavioral and Brain Sciences

## Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

*Behavioral and Brain Sciences*, with its imposing ISI Impact Factor of 12.818, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.
