# *The Journal of Applied Bacteriology*

Edited by

D. J. Jayne-Williams, Ph.D.  
and G. Sykes, M.Sc.

*The Journal of Applied Bacteriology* (previously known as the proceedings of the Society for Applied Bacteriology) is published for the Society to advance the study of microbiology, particularly bacteriology, in its application to industry.

Long established as an international medium for original papers embracing the many aspects of *applied bacteriology* the Journal serves the widening interests of microbiologists in all fields of research.

The Journal is published three times a year (comprising one volume) in April, August and December.

The Editors are ready to consider for publication papers appearing on all aspects of applied microbiology. Review articles may also be accepted.

Papers submitted for consideration should be addressed to:

Dr D. J. Jayne-Williams  
National Institution for Research  
in Dairying,  
Shinfield, Reading,  
Berks, England

#### SUBSCRIPTIONS

Vol. 27/8, 1964/5 (three issues), 126s./\$18.00 per annum. Postage outside England 3s. per year. Back volumes (bound) are obtainable from the publishers. All enquiries regarding subscriptions/advertisements should be addressed to the publishers.
