STATEMENT OF AIDS

Institutions are the stuff of social and economic life. The importance of understanding the role of institutions in economic growth is now widely appreciated. The Journal of Institutional Economics is devoted to the study of the nature, role and evolution of institutions in the economy, including firms, states, markets, money, households and other vital institutions and organizations. It welcomes contributions by all schools of thought that can contribute to our understanding of the features, development and functions of real world economic institutions and organizations.

The Journal of Institutional Economics is an interdisciplinary journal that will be of interest to all academics working in the social sciences, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 50 days of submission.

The Journal of Institutional Economics is owned by Millennium Economics Ltd, which has the following shareholders:

European Association for Evolutionary Political Economy (EAEPE) www.eaepe.org

Foundation for European Economic Development (FEED) www.feed-charity.org

Society for the Advancement of Socio-Economics (SASE) www.sase.org

World Interdisciplinary Network for Institutional Research (WINIR) www.winir.org
