

ASTIN BULLETIN ONLINE

Many readers will already be aware that ASTIN Bulletin has a growing presence on the internet.

First, we are very grateful to the Casualty Actuarial Society for posting back issues of the Bulletin on their website at

www.casact.org/library/astin/

More recently a search engine has been developed on the IAA website

www.actuaries.org/public/en/ASTIN/bulletin.cfm

and this enables researchers to search by subject area, author or keywords in the title of the paper.

Both of these developments will provide actuaries worldwide with an excellent resource.

Andrew Cairns
