Malassezia furfur Skin Colonization in Infancy

Louis M. Bell, MD; Gershon Alpert, MD; Paula Horton Slight, RN, MPH; Joseph M. Campos, PhD

Infection Rate for Single Lumen *v* Triple Lumen Subclavian Catheters

Carole Yeung, RN; John May, MS; Roger Hughes, RN

Infection Control in Maryland Nursing Homes

Rima F. Khabbaz, MD; James H. Tenney, MD

Check the results. SCRUB-STAT IV outperforms IBICLENS: And costs less, too.

Until now, the standard of comparison for CHG surgical scrubs has been HIBICLENS® Antimicrobial Skin Cleanser.* No longer, Huntington Laboratories has developed a unique CHG based formulation that's as effective as HIBICLENS, but less expensive. And it's gentle, too. We call it SCRUB-STAT IV.TM

Proven efficacy.

We knew we had to make SCRUB-STAT IV as effective as HIBI-CLENS® Antimicrobial Skin Cleanser. If it fell short, there would be no reason for you to use it.

SCRUB-STAT IV was subjected to months of independent laboratory testing. The results of these and other tests show that SCRUB-STAT IV is as effective as HIBICLENS® in destroying both gram-positive and gram-negative organisms including Staphylococcus aureus, Pseudomonas cepacia and Serratia marcescens. And SCRUB-STAT IV's residual effect lasts as long as HIBICLENS?

Preferred by hospital personnel.

SCRUB-STAT IV has the skin care emollients HIBICLENS® left out. We put SCRUB-STAT IV and HIBICLENS® into 'unmarked bottles, took them into a hospital and asked 140 staff members to wash with both. Then we recorded their reactions. Seventy-four percent preferred SCRUB-STAT IV. Many mentioned its fragrance and superior lathering, and a large majority simply said it left their

hands feeling better. These qualities and SCRUB-STAT IV's efficacy and lower cost make it ideal as a Health Care Personnel Handwash.

Scrub-Mate- disposable dispensing system.

We didn't stop with a better surgical scrub. We also designed a better foot-operated surgical scrub dispenser. It's called Scrub-Mate.

The reservoir in our new quart size dispenser is disposable. So are the head and delivery tube. When it's empty, throw it away. No messy clean up, no clogging, no cross-contamination.

Begin your evaluation nuw.

Huntington formulated SCRUB-STAT IV to help control infection and control costs. We know you'll want to start evaluating it immediately. To speed the process, we'll supply you with

product and dispenser for a complete evaluation. To get yours, call us today, toll-free:

Bart Phillips Sloane

Sunlight & Shadow.

The scene is along French Creek at St. Peters, Pennsylvania. Huge, water-worn rocks prompt one to philosophize about time, and patience, and perseverance. A gurgling, splashing water under changing light and shadow adds to the fascination. A pleasant spot for quiet refreshment.

Edition limited to 650 full-color, reproductions, signed by the artist, Bart Phillips Sloane. Image size $20\frac{1}{8} \times 32$ \$120.00
