The British Isles: A History of Four Nations

Hugh F. Kearney

"This timely book aims to correct many popular errors of which historians of the British Isles, at least are guilty... this is a refreshing book, especially salutary for English historians, but with lessons for Welsh, Irish, and Scottish historians too... Kearney's book should be widely used to educate those who think they know about British history when in fact they know only English history."

European Women and the Second British Empire

By Margaret Strobel

Based on the published accounts of travelers and officials' wives, biographies and other materials, this is a lively, fast-paced account of the roles of white women in the British empire, from about 1880 to the recent past. The European women of the second British empire carved out a space for themselves amid the options made available to them by British expansion, but they too were treated as inferiors—the inferior sex within the superior race. cloth \$27.50 • paper \$8.95

The Long Argument

**English Puritanism and the Shaping of
New England Culture, 1570–1700**

BY STEPHEN FOSTER

Focusing on Puritanism as a cultural and political phenomenon as well as a religious movement, Stephen Foster examines its parallel development on both sides of the Atlantic and firmly places New England Puritanism within its English context. “Striking interpretations of English Puritanism and a fresh appraisal of the turmoil of the 1630s in New England. . . . This is a masterful work.”

THE ENGLISH HISTORICAL REVIEW

Edited by
R J W Evans and J R Maddicott

First published in 1886, *THE ENGLISH HISTORICAL REVIEW* is the oldest quarterly journal of historical scholarship in the English-speaking world. It deals with all aspects of European and world history, as well as the history of Britain itself, since the classical era.

EHR includes major Articles, 'Notes and Documents', and Debates on medieval and modern themes, as well as an unusually extensive range of reviews and shorter notices of books published throughout the world.

A further important feature is the summary of international periodical literature published in the previous twelve months, which appears in the July issue each year.

The Small Towns of Roman Britain

BARRY BURNHAM & JOHN WACHER

The authors survey a wide range of Roman town sites, answering many questions about their character and the archaeological problems they raise. Because there is almost no documentary or epigraphic material of any real value on the small towns, this archaeological evidence provides a heretofore unavailable perspective.
