WORKERS AND INDUSTRIALIZATION

The Network on Workers and Industrialization of the Social Science History Association invites all historians and social scientists working in or concerned with labor and working class history or the social history of industrial societies to participate in and to help define the aims and functions of the group. An initial meeting of some forty persons at the SSHA conference in Philadelphia (October 28-31) designated a steering committee to assist in establishing the network and in formulating its goals. It has been suggested that in the next few months we consider the following: arranging regional or local networks; helping arrange programs at history conventions and conferences; evaluating the feasibility of exchanging unpublished manuscripts for mutual benefit and criticism; and we want to attract all interested participants. We welcome suggestions, and reactions to the above suggestions. Please contact David Montgomery (Department of History, University of Pittsburgh, Pittsburgh, PA 15260), or Charles Stephenson (Family and Community History Center, The Newberry Library, 60 West Walton Street, Chicago, IL 60610), or any other member of the steering committee: Michael Hanagan or Elizabeth Pleck (both Department of History, University of Michigan, Ann Arbor, Michigan 48109), or John Bodnar (Pennsylvania Historical Commission, Harrisburg, PA 17078).
