Progress in Echinoderm Paleobiology
Samuel Zamora and Imran A. Rahman, Guest Editors

579 Samuel Zamora and Imran A. Rahman
Progress in echinoderm paleobiology

582 Christopher R. C. Paul
Testing for homologies in the axial skeleton of primitive echinoderms

604 Colin D. Sumrall
New insights concerning homology of the oral region and ambulacral system plating of pentaradial echinoderms

618 Bradley Deline and James R. Thomka
The role of preservation on the quantification of morphology and patterns of disparity within Paleozoic echinoderms

633 Tobias B. Grun, Andreas Kroh, and James H. Nebelsiek
Comparative drilling predation on time-averaged phosphatized and nonphosphatized assemblages of the minute clypeasteroid echinoid Echinocyamus stellatus from Miocene offshore sediments (Globigerina Limestone Formation, Malta)

643 Zain Belaústegui, Fernando Muñiz, James H. Nebelsiek, Rosa Dominech, and Jordi Martínez
Echinoderm ichnology: bioturbation, bioerosion and related processes

662 Johnny A. Waters, Lyndsea R. White, Colin D. Sumrall, and Bonnie K. Nguyen
A new model of respiration in blastoids (Echinodermata) hydropores based on computational fluid dynamic simulations of virtual 3D models

672 Elias Nardin, Bertrand Lebelere, Oldrich Fatka, Martina Nohejlová, Libor Kašicka, Miroslav Šinágl, and Mihail Šabat
Evolutionary implications of a new transitional blastozoan echinoderm from the middle Cambrian of the Czech Republic

685 Ninon Allaire, Bertrand Lebelere, Elias Nardin, Emmanuel L.D. Martin, Romuald Vaucher, and Gilles Exercourt
Morphological disparity and systematic revision of the echinoid genus Rhopalocystis (Echinodermata, Echinoida) from the Lower Ordovician of the central Anti-Atlas (Morocco)

715 Selina R. Cole, William I. Ausich, Jorge Colmenar, and Samuel Zamora
Filling the Gondwanan gap: paleobiogeographic implications of new crinoids from the Castillejo and Fombuena formations (Middle and Upper Ordovician, Iberian Chains, Spain)

735 Mike Reich, James Sprinkle, Bertrand Lebelere, Gertrud E. Rössner, and Samuel Zamora
The first Ordovician olenocyssid (Echinodermata) from Gondwana and its morphology, paleoecology, taphonomy, and paleogeography

755 Sarah L. Sheffield and Colin D. Sumrall
Generic revision of the Holocrystidae of North America (Diploporita, Echinodermata) based on universal elemental homology

807 Jeffrey R. Thompson, Elizabeth Peltaös, and David J. Bottjer
A diverse assemblage of Permain echinoids (Echinodermata, Echinoidea) and implications for character evolution in early crown group echinoids

831 Timothy A.M. Evans and Ben Thou
Brittle stars from the British Oxford Clay: unexpected ophiuroid diversity on Jurassic sublittoral mud bottoms

839 David F. Wright
Bayesian estimation of fossil phylogenies and the evolution of early to middle Paleozoic crinoids (Echinodermata)

851 Selina R. Cole
Phylogeny and morphologic evolution of the Ordovician Camerata (Class Crinoidea, Phylum Echinodermata)

829 David F. Wright, William I. Ausich, Selina R. Cole, Mark E. Peter, and Elizabeth C. Rhenberg
Phylogenetic taxonomy and classification of the Crinoidea (Echinodermata)

847 Jennifer E. Bauer, Colin D. Sumrall, and Johnny A. Waters
Hydrospire morphology and implications for blastoid phylogeny

SUBSCRIPTION INFORMATION

The Journal of Paleontology [ISSN 0022-3360] is published bimonthly (January, March, May, July, September, and November) by Cambridge University Press for the Paleontological Society. Members of the Paleontological Society automatically receive electronic subscriptions to the Journal of Paleontology and Paleobiology as a benefit of membership. Institutional subscriptions can be purchased direct from Cambridge University Press or through any major subscription agent. Print-only, online-only and bundled print and online prices are all available, and subscription prices are tiered according to institution type and size.

Please contact Cambridge University Press for further details:

For customers in North America
  Email: subscriptions_newyork@cambridge.org;
  Phone: (800) 872-7423, option 4

For customers outside of North America
  Email: journals@cambridge.org;
  Phone: +44 (0)1223-32-6070; Fax: +44 (0)1223-32-5150

Downloads of individual articles are available on https://cambridge.org/JPA.
Reprints of individual articles may be ordered. For information on reprints, please contact Cambridge University Press.
Archives of previous issues are available on https://cambridge.org/JPA.

ADVERTISING
To advertise in the journal please email USAdSales@cambridge.org or telephone +1(212) 337-5053 in the USA, Canada, or Mexico; email ad_sales@cambridge.org or telephone +44 (1223) 325083 in the rest of the world.

ABSTRACTING AND INDEXING
Abstracting and indexing information for the Journal of Paleontology is available at: https://www.cambridge.org/core/journals/journal-of-paleontology/information/abstracting-and-indexing.

POSTAL INFORMATION
Periodicals postage rate paid at New York, NY, and at additional mailing offices. POSTMASTER: Send address changes in the USA, Canada, and Mexico to: Journal of Paleontology, Cambridge University Press, Journals Fulfillment Department, One Liberty Plaza, 20th Floor, New York, NY 10006. Send address changes elsewhere to the Journal of Paleontology, Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, England.
