We found an error in (2.4) of Ledda *et al.* (2021). The correct non-dimensional expression for the curvature of the free surface is

$$\kappa = \nabla \cdot \left(\frac{\nabla(h + h^0)}{\sqrt{1 + \left(\frac{h_N}{l_c^*}\right)^2 |\nabla(h + h^0)|^2}} \right).$$

While this error does not bear any consequence in the linear analysis at the core of this paper, the value $h_N/l_c^* = 1$ has to be specified in figures 15, 16, 17, 21, without altering the discussion.
