Books and Journals from Cambridge University Press

History is the largest single subject area for the Press. It is a programme with both depth and breadth, ranging in subject matter from late antiquity to the present day, international in scope and embracing new approaches.

Our publishing includes major reference series, textbooks and monographs, as well as a collection of distinguished journals affiliated to the world’s leading scholarly societies.

Together, they reflect the diversity of the discipline and offer an unmatched resource for today’s historians.

Medical History is a refereed journal devoted to all aspects of the history of medicine, health and related sciences, with the goal of broadening and deepening the understanding of the field, in the widest sense, by historical studies of the highest quality. It is associated with the European Association for the History of Medicine and the Asian Society for the History of Medicine, and the World Health Organization’s Global Health Histories initiative. The membership of the Editorial Board reflects the commitment to the finest international standards in refereing of submitted papers and the reviewing of the books.

The journal publishes in English, but welcomes submissions from scholars for whom English is not the first language; language and copy-editing assistance will be provided wherever possible.
