POSTMASTER: Send address changes to Journal of Financial and Quantitative Analysis, School of Business Administration, University of Washington, DJ-10, Seattle, Washington 98195.

Second class postage is paid at Seattle, Washington.

Copyright 1992, School of Business Administration, University of Washington.

PURPOSE AND FOCUS
The Journal of Financial and Quantitative Analysis (JFQA) is published quarterly in March, June, September, and December by the School of Business Administration at the University of Washington in Seattle, Washington U.S.A.

The JFQA publishes theoretical and empirical research in financial economics. Topics include corporate finance, investments, capital and security markets, and quantitative methods of particular relevance to financial researchers.

Opinions expressed in the JFQA are those of the authors and do not necessarily reflect those of the School of Business Administration of the University of Washington.

For specific information concerning subscriptions, submissions, single-copy orders, missing issues, permission to reprint, or advertising, write, call, or fax the JFQA office.

SUBMISSIONS
Manuscripts are to be sent in quadruplicate with a $50 submission fee for subscribers ($90 for nonsubscribers) to Professor Paul Malatesta, Managing Editor. To receive a style guide, write, call, or fax the JFQA office.

SUBSCRIPTIONS
Subscriptions, which must be prepaid and renewed annually, start with the next available issue unless otherwise requested. Checks or money orders must be payable to the JFQA in U.S. dollars for deposit in a U.S. bank. VISA and MasterCard are accepted. Claims for missing issues must be made within 6 months of the date of publication.

Annual Subscription Fees:

Note from the Managing Editors:

This issue marks the end of the JFQA's twenty-seventh year of publication. Among the oldest of the primary outlets for financial researchers, the JFQA is also among the most widely circulated. Individual and institutional subscribers now exceed 3100 worldwide, reflecting a continuing growth rate of about 5-6% per year.

The JFQA continues to attract a large and increasing number of manuscripts. For the 12-month period October 1991 – September 1992, 433 submissions were received, an increase of 11% over the preceding year. A total of 472 manuscripts were processed, and 46 were accepted. We have increased the average size of each JFQA issue to accommodate the large number of high-quality submissions. Nonetheless, the acceptance rate of 9.7% is down from 11.4% in 1991 and 12% in 1990.

The JFQA’s continued success reflects in large part the efforts of its Associate Editors, who are actively involved in manuscript review and development. This year we welcome nine new Associate Editors, each of whom has agreed to serve a four-year term: Wayne Ferson, Bruce Grundy, Gregg Jarrell, Donald Keim, Robert Korajczyk, Francis Longstaff, Robert McDonald, John Pound, and Ralph Walkling. We also thank Chi-Fu Huang, who departed from the editorial board after eight years of service to the journal. Our thanks to the Associate Editors are but a small token of our gratitude for their service. Their efforts continue to help mold the journal into a broad-based outlet for current and useful financial research.

The JFQA relies upon researchers from all areas of finance who willingly give their time and expertise. The list of JFQA Reviewers on the following pages provides the names of colleagues who have reviewed at least one paper each during the year ended September 30, 1992. We thank them also; their service allows the JFQA to truly represent all areas of financial research.
