Aims and Scope: The International Journal of Technology Assessment in Health Care has as its specific scope of interest the methods of assessing such technologies; please see Journal Aims and Scope for full details. Manuscripts are always considered from the Editors and members of the Editorial Board. Those that pass proceed to an international review process, which usually is completed within 4 to 10 weeks. Accepted manuscripts will be published within 4 to 6 months. Articles must be in English. Spelling, punctuation, and grammar should conform to the 15th Edition of The Chicago Manual of Style (University of Chicago Press). Manuscript Submission and Review: All manuscript submissions to the International Journal of Technology Assessment in Health Care must be made electronically via ScholarOne Manuscripts, at the website: http://mc.manuscriptcentral.com/thc.

Please follow the detailed instructions on the website to avoid delays. The authors are asked to provide contact information and they may suggest reviewers. The website automatically acknowledges receipt of the manuscript and provides a manuscript reference number. Every effort will be made to provide the author with a rapid review. Correspondence must quote manuscript reference number and should be sent by email to the Editorial Office at IJTAHC@thl.fi.

Preparation of Manuscripts: The manuscript, including all references, must be provided in Word or RTF format, double spaced on 8½ × 11 inch or A4 page sizes, with at least 1-inch (2.54 cm) margins. Manuscripts should typically have less than 4000 words, including the abstract of 150 words or less. Manuscripts exceeding these limits may be penalized or returned to the author. Manuscripts should be submitted in .doc, .docx, or .rtf files. All manuscripts are peer reviewed. Manuscripts must be submitted in a single electronic file that is accompanied by a cover sheet. References must be provided in the style recommended by the Institute of Medicine (IOM) and the National Library of Medicine (NLM). For complete information on all the options available please visit http://journals.cambridge.org/OpenAccess.
