The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

American Political Science Review and International Organization are widely recognised as the leading generalist journals in political science and international relations, while the likes of British Journal of Political Science and World Politics remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.

STATEMENT OF AIMS
International Theory (IT) promotes theoretical scholarship about the positive, legal, and normative aspects of world politics respectively. IT is open to theory of all varieties and from all disciplines, provided it addresses problems of politics, broadly defined and pertains to the international.

IT welcomes scholarship that uses evidence from the real world to advance theoretical arguments. However, IT is intended as a forum where scholars can develop theoretical arguments in depth without an expectation of extensive empirical analysis.

IT’s overarching goal is to promote communication and engagement across theoretical and disciplinary traditions. It puts a premium on contributors’ ability to reach as broad an audience as possible, both in the questions they engage and in their accessibility to other approaches. However, IT is also open to work that remains within one scholarly tradition, although in that case authors must make clear the horizon of their arguments in relation to other theoretical approaches.

All articles will be peer-reviewed.

With thanks to the Mershon Center, Ohio State University, for financial support.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.

SUBMISSION OF ARTICLES
International Theory invites authors to submit original theoretically oriented articles on the positive, legal, and/or normative aspects of world politics. Because IT is multidisciplinary with a broad intended audience, contributions must be as accessible as possible to readers from a wide range of disciplines and theoretical traditions. Papers that are primarily empirical or policy oriented are not a good fit.

We will not review manuscripts that have already been published, are scheduled for publication elsewhere, or have been simultaneously submitted to another journal; this applies to both print and online formats. All articles will be peer-reviewed by anonymous referees drawn for our Editorial Board and, on their advice, from relevant scholars around the world. Referees for the previous calendar year will be acknowledged in the final issue of each volume.

IT will review articles up to 15,000 words (including notes and bibliography), although authors will be encouraged to edit their papers to fewer than 12,000 words before publication. Brevity is encouraged and shorter papers will be advantaged in acceptance decisions. Please include a word count with submission, along with an abstract of no more than 150 words, which is not repeated from the paper itself.

References and citations should follow The Chicago Manual of Style. Citations in the text or footnotes should be limited to author’s family name and date, with complete bibliographic information appearing in a list of references at the end of the article. The one exception is for legal articles; while strongly encouraged to follow the author-date system, if that proves unworkable legal authors may substitute the European Journal of International Law guidelines (available at http://www.ejil.org/info/style-toc.html). All tables and figures must be cited in a paper. Figures ideally to be submitted as separate TIFF or EPS files. Full details can be found on our website at journals.cambridge.org

Titles of journals should not be abbreviated in the list of references (author-date system) or in the footnotes (legal articles). Table, figures and their accompanying legends should be placed at the end of the article with their desired location indicated in the text. Authors should submit their manuscript in electronic form as a MS Word file in an email attachment to it.mershon@osu.edu. (Please do not submit the manuscript in PDF format). Authors should attach both a complete version of the manuscript as well as an anonymous version stripped of all identifying references to the author(s) that can be sent to reviewers.

To submit a manuscript, please visit www.editorialmanager.com/it, where you will find detailed information about the on-line submission procedure and required manuscript formatting. Any questions about these procedures may be directed to the Editors.
