<b>Editorial</b>	
Where does your food come from? <i>A Yngve, I Haapala, A Hodge, G McNeill and M Tseng</i>	1755
<b>HOT TOPIC – Environment, nutrition and sustainability</b>	
Neighbourhood food environments: are they associated with adolescent dietary intake, food purchases and weight status? <i>MN Laska, MO Hearst, A Forsyth, KE Pasch and L Lytle</i>	1757
Texas nutrition environment assessment of retail food stores (TxNEA-S): development and evaluation <i>CT Gloria and MA Steinhardt</i>	1764
Measuring the food environment using geographical information systems: a methodological review <i>H Charreire, R Casey, P Salze, C Simon, B Chaix, A Banos, D Badariotti, C Weber and J-M Oppert</i>	1773
Something fishy? News media presentation of complex health issues related to fish consumption guidelines <i>A Greiner, KC Smith and E Guallar</i>	1786
<b>Monitoring and surveillance</b>	
Breakfast trends in children and adolescents: frequency and quality <i>U Alexy, M Wicher and M Kersting</i>	1795
Salt intake of the Slovene population assessed by 24 h urinary sodium excretion <i>CH Ribič, JM Zakotnik, L Vertnik, M Vegnuti and FP Cappuccio</i>	1803
The prevalence and correlates of taking folic acid and vitamin supplements among adults aged $\geq 45$ years with CVD <i>G Zhao, ES Ford, C Li and AH Mokdad</i>	1810
The effect of coffee consumption on serum total cholesterol in the Sami and Norwegian populations <i>T Nystad, M Melhus, M Brustad and E Lund</i>	1818
Short communication	
An observational study of consumer use of fast-food restaurant drive-through lanes: implications for menu labelling policy <i>CA Roberto, E Hoffnagle, MA Bragg and KD Brownell</i>	1826
Emerging obesity and dietary habits among James Bay Cree youth <i>CB Khalil, L Johnson-Down and GM Egeland</i>	1829
Clustering of multiple lifestyle behaviours and its relationship with weight status and cardiorespiratory fitness in a sample of Flemish 11- to 12-year-olds <i>J Seghers and C Rutten</i>	1838
<b>Assessment and methodology</b>	
The International Physical Activity Questionnaire modified for the elderly: aspects of validity and feasibility <i>A Hurtig-Wennlöf, M Hagströmer and LA Olsson</i>	1847
Nutritional composition, assessed by chemical analyses, of prepared foods available for primary-school children: a comparison of public and private schools <i>ML Weber and TB Morais</i>	1855

Contents continued on backmatter

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a copy of the issue and a PDF of the published paper free of charge. Offprints are available to purchase and can be ordered before publication.

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at [journals.cambridge.org/PHN](http://journals.cambridge.org/PHN), with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 13, 2010 (12 issues):  
Internet/print package: £697/\$1337 Americas only/€1117 EU only  
Internet only: £589/\$1116 Americas only/€936 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition  
Cambridge University Press  
100 Brook Hill Drive  
West Nyack  
New York 10994-2133  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper and a copy of the issue in which their paper has been published. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society, nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

Contents continued from outside back cover

**Biological and behavioural determinants**

Relationship of serum carotenoids and retinol with anaemia among pre-school children in the northern mountainous region of Vietnam 1863

*NC Khan, P Van Huan, N Van Nbien, LD Tuyen, S de Pee and RD Semba*

Determinants of the prevalence and incidence of overweight in children and adolescents 1870

*S Plachta-Danielzik, B Landsberg, M Johannsen, D Lange and MJ Müller*

Actual use of a front-of-pack nutrition logo in the supermarket: consumers' motives in food choice 1882

*EL Vyth, IHM Steenbuis, JA Vlot, A Wulp, MG Hogenes, DH Looije, J Brug and JC Seidell*

Quality, but not cost, of diet is associated with 5-year incidence of CVD: the ATTICA study 1890

*K Vlismas, DB Panagiotakos, C Pitsavos, C Chrysoboou, Y Skoumas, M Sitara, J Yfantopoulos, V Stavrinos and C Stefanadis*

**Social, economic, political and environmental determinants**

Does nutrition education in primary schools make a difference to children's fruit and vegetable consumption? 1898

*JK Ransley, EF Taylor, Y Radwan, MS Kitchen, DC Greenwood and JE Cade*

Determinants of sports, cycling, walking and overall leisure-time physical activity among postmenopausal women in Germany 1905

*K Steindorf, J Chang-Claude, D Flesch-Janys and ME Schmidt*

**Interventions**

Engagement with dietary fibre and receptiveness to resistant starch in Australia 1915

*P Mohr, S Quinn, M Morell and D Topping*

Effect of an improved local ingredient-based complementary food fortified or not with iron and selected multiple micronutrients on Hb concentration 1923

*HZ Ouédraogo, T Traoré, AN Zèba, M Dramaix-Wilmet, P Hennart and P Donnen*

The impact of nutrition education with and without a school garden on knowledge, vegetable intake and preferences and quality of school life among primary-school students 1931

*PJ Morgan, JM Warren, DR Lubans, KL Saunders, GI Quick and CE Collins*

**Invited commentary**

Linking agriculture and nutrition 1941

*T Griffin*
