This journal offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of livestock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental techniques.

Vol. XXX. No. 119 CONTENTS July 1962

Gwilym Evans: Seed Rates of Grasses for Seed Production. II. Bred Varieties of Tall Fescue, Meadow Fescue, Cocksfoot (Hay Type), and Phalaris Hybrid.

J. E. Jackson, R. C. Faulkner and D. K. Dutta Roy: Studies in the Quality of Gezira Cottons. II. The Effect of Site, Nitrogen, and Spacing on Seed-Cotton Grade.

A. W. Moore: The Influence of a Legume on Soil Fertility under a Grazed Tropical Pasture.

A. K. Dutt: Sulphur Deficiency in Sugar-Cane.

Royal 8vo. 14s. net. Annual subscription (four numbers) 45s. post free.
CONTENTS

GORDON, I., WILLIAMS, G. and EDWARDS, J. The use of serum gonadotrophin (P.M.S.) in the induction of twin-pregnancy in the cow. (With Two Plates) .................................................. 143

HENDERSON, J. L., EDWARDS, R. S. and HAMMERTON, J. L. The productivity of five grass species at six levels of compound fertilizer application. II. Crude-protein production. (With Ten Text-figures) .................................................. 199

CUTHBERTSON, A. and POMEROY, R. W. Quantitative anatomical studies of the composition of the pig at 50, 68 and 92 kg. carcass weight. I. Experimental material and methods. (With Three Plates and Two Text-figures) .................................................. 207

CUTHBERTSON, A. and POMEROY, R. W. Quantitative anatomical studies of the composition of the pig at 50, 68 and 92 kg. carcass weight. II. Gross composition and skeletal composition. (With Four Plates and Three Text-figures) .................................................. 215

ROOK, J. A. F. and CAMPING, R. C. Magnesium metabolism in the dairy cow. IV. The availability of the magnesium in various feedingstuffs. (With One Text-figure) .................................................. 225

LAIRED, R., Jr., and WALKER-LOVE, J. Supplementing high-yielding cows at pasture with concentrates fed at a level determined by milk yield and season. (With One Text-figure) .................................................. 233

LAMPKIN, K. and HOWARD, D. A. Studies on the production of beef from zebu cattle in East Africa. IV. Variation in blood haemoglobin and its response to the feeding of dicalcium phosphate. (With Two Text-figures) .................................................. 245

HOWARD, D. A., BURDIN, M. L. and LAMPKIN, G. H. Variation in the mineral and crude-protein content of pastures at Muguga in the Kenya highlands. (With Two Text-figures) .................................................. 251

CUNNINGHAM, R. K. Mineral nitrogen in tropical forest soils. (With Two Text-figures) .................................................. 257

WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. An experiment comparing urea-formaldehyde fertilizer with ‘nitro-chalk’ for Italian ryegrass .................................................. 263

WARREN, R. G. and COOKE, G. W. Comparisons between methods of measuring soluble phosphorus and potassium in soils used for fertilizer experiments on sugar beet .................................................. 269

WILLIAMS, R. J. B. and COOKE, G. W. Measuring soluble phosphorus in soils, comparisons of methods, and interpretation of results .................................................. 275

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of ‘References’ in the following form:
Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the World List of Scientific Periodicals), volume and page of reference. In the text a reference should be quoted by the author’s name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.
Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 25s. net.
Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is $11.50 per volume; single number $4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
