Tokyo, Japan

Nagoya Mathematical Journal is the official journal of the Graduate School of Mathematics, Nagoya University, designed solely for the publication of research papers. However, invited papers and other original papers in mathematics from all over the world are also regularly published in Nagoya Mathematical Journal. Currently, 4 volumes are published each year.

All manuscripts should be typewritten in English, French, or German. Papers should be prepared using T<sub>E</sub>X if possible, but only the printed hard copy should be submitted (2 copies). Authors submitting old-fashioned typescript are requested to clearly distinguish special symbols and letters such as bold-face, script, German and Greek letters. The editors may request the original T<sub>E</sub>X files of papers accepted for publication. The journal's L<sup>A</sup>T<sub>E</sub>X style file and its manual can be obtained from the following URL.

<http://www.math.nagoya-u.ac.jp/nmj/index.html>

Papers should include

- (a) a short abstract of the contents,
- (b) classification numbers at the foot of page 1 according to the 1991 Mathematics Subject Classification, to be found in the 1990 Annual Index of *Mathematical Reviews*,
- (c) the author's coordinates, including e-mail address and Fax numbers,
- (d) for papers with long titles, the author's choice of running head (not longer than 40 characters).

As soon as we receive a manuscript, a receipt will be sent to the author. When a manuscript has been sent to a referee, the author will receive another notice. These receipts and notices, however, do not mean anything regarding the acceptability of the paper for publication. If the editorial committee has decided to accept a paper, the author will receive a notice containing the number of the volume in which the paper will appear.

Authors submitting a joint paper must provide instructions as to which author is responsible for proof-reading (only one set of proofs will be provided). Each author, as well as each co-author will have 100 reprints.

The manuscript and general correspondence should be addressed to: Managing editor, Nagoya Mathematical Journal, Graduate School of Mathematics, Nagoya University, Chikusa-ku, Nagoya, 464-8602, Japan.

## CONTENTS

---

<b>Vladimir, M.:</b> Very ampleness of adjoint linear systems on smooth surfaces with boundary .....	1
<b>Mortajine, A. L.:</b> Z-graduations de type parabolique et polynomes harmoniques .....	31
<b>Noumi, M. and Yamada, Y.:</b> Symmetries in the fourth Painlevé equation and Okamoto polynomials .....	53
<b>Takahashi, S.:</b> A sufficient condition for Nevanlinna parametrization and an extension of Heins theorem .....	87
<b>Bogachev, V., Lescot, P. and Röckner, M.:</b> The martingale problem for pseudo-differential operators on infinite-dimensional spaces .....	101
<b>Adachi, T.:</b> Distribution of length spectrum of circles on a complex hyperbolic space .....	119
<b>Herzog, J. and Hibi, T.:</b> Componentwise linear ideals .....	141
<b>Jorgenson, J. and Lang, S.:</b> Hilbert-Asai Eisenstein series, regularized products, and heat kernels .....	155
<b>Arakawa, T. and Kaneko, M.:</b> Multiple zeta values, poly-Bernoulli numbers, and related zeta functions .....	189
