

**Copying.** This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/90 \$5.00 + .00.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The *Proceedings of the Nutrition Society*, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £81 in UK, £85 elsewhere net (US \$180.00 in USA and Canada). Single issues are £29.00 (US \$69.00 in the USA and Canada) each; postage extra.

# The British Journal of Nutrition

VOL. 64 NO. 3 NOVEMBER 1990

## CONTENTS

**Editorial**

- Familiarity with the literature. *D. A. T. Southgate* 597–598

**Diet and Pregnancy**

- A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. *Sjúrður F. Olsen & Niels J. Secher* 599–609

**Diet and Development**

- Body composition of goat kids during sucking. Voluntary feed intake. *M. R. Sanz Sampelayo, I. Ruiz, F. Gil & J. Boza* 611–617
- The immediate effects of abrupt diet composition changes in young pigs. *I. Kyriazakis & G. C. Emmans* 619–623

**Energy and Protein Metabolism**

- Energy and nitrogen intake, expenditure and retention at 20° in growing fowl given diets with a wide range of energy and protein contents. *M. G. MacLeod* 625–637
- The effect of fishmeal supplementation of a straw-based diet on growth and calorimetric efficiency of growth in heifers. *Isabelle Ortigues, T. Smith, M. Gill, S. B. Cammell & N. W. Yarrow* 639–651
- Non-essential nitrogen and protein utilization in the growing rat. *J. Heger* 653–661

**Amino Acid Availability**

- A comparison of the availability and ileal digestibility of lysine in cottonseed and soya-bean meals for grower/finisher pigs. *E. S. Batterham, L. M. Andersen, D. R. Baigent, R. E. Darnell & M. R. Taverner* 663–677
- Utilization of ileal digestible amino acids by pigs: lysine. *E. S. Batterham, L. M. Andersen, D. R. Baigent, S. A. Beech & R. Elliott* 679–690

**Synthesis of Muscle Protein**

- Muscle protein synthesis in response to testosterone administration in wether lambs. *G. E. Lobley, Alexmary Connell, E. Milne, Vivien Buchan, A. G. Calder, Susan E. Anderson & Hazel Vint* 691–704

**Diet and Metabolic Responses to Glucose**

- The initial physiological responses to glucose ingestion in normal subjects are modified by a 3 d high-fat diet. *M. B. Sidery, I. W. Gallen & I. A. Macdonald* 705–713
