THE MATHEMATICAL ASSOCIATION

The fundamental aim of the Mathematical Association is to promote good methods of mathematical teaching. A member receives each issue of the Mathematical Gazette and/or Mathematics in School (according to the class of membership chosen), together with Newsletters. Reports are published from time to time and these are normally available to members at a reduced rate. Those interested in becoming members should contact MA Headquarters for information and application forms. The address of the Association Headquarters is 259 London Road, Leicester LE2 3BE, UK (telephone 0116 221 0013). The Association should be notified of any change of address. If copies of the Association periodicals fail to reach a member through lack of such notification, duplicate copies can only be supplied at the published price. If change of address is due to a change of appointment, the Association will be glad to be informed. Subscriptions should be submitted to the Treasurer via Headquarters. Correspondence relating to Teaching Committee should be addressed to Mrs Rachael Horsman. The Association's Library is housed in the University Library, Leicester.

Views expressed in the Mathematical Gazette by authors or advertisers are not necessarily those of the Association.

THE MATHEMATICAL GAZETTE

Editor: Problem Corner:
Dr Gerry Leversha, Mr Nick Lord,
15 Maunder Road, Tonbridge School,
Hanwell, Kent TN9 1JP
London W7 3PN

Production Editor: Reviews Editor:
Mr Bill Richardson, Mr Owen Toller,
Kintail, St Paul's School,
Longmorn, Lonsdale Road,
Elgin IV30 8RJ London SW13 9JT
W.P.Richardson@open.ac.uk olct@stpaulsschool.org.uk

Potential advertisers should send an e-mail to: advertisingcontroller@m-a.org.uk

Material for publication should be sent to the Editor.
Books for review should be sent to the Reviews Editor.

Advice to authors of notes and articles.

Study the format of articles in the Gazette. Please note the format for references, which should be listed in their order of appearance in an article. MSS may be submitted electronically, preferably in pdf format, or, if sent by post, should be typed and two copies included. (Mathematical expressions may be hand written.) Please send by e-mail not on floppy discs. This edition of the Gazette was produced on an Acorn machine using TechWriter and Draw.

## CONTENTS

### Articles

- **Remembering spherical trigonometry**  
  *John Conway and Alex Ryba*  
  Page 1

- **Defining trigonometric functions via complex sequences**  
  *Jan Gustavsson and Mikael P. Sundqvist*  
  Page 9

- **Should we play on your lawn or mine?**  
  *J. N. S. Matthews*  
  Page 24

- **Packing a rectangle with $m \times (m + 1)$ rectangles**  
  *Richard Ellard and Des MacHale*  
  Page 34

- **Picking genuine zeros of cubics in the Tschirnhaus method**  
  *Raghavendra G. Kulkarni*  
  Page 48

- **Some properties of Kiepert lines of a triangle**  
  *Michael Fox*  
  Page 54

- **On the classification of convex quadrilaterals**  
  *Martin Josefsson*  
  Page 68

- **Calculus meets the birthday problem**  
  *Dale K. Hathaway and Joshua Barks*  
  Page 86

- **Convex polygons as carriers**  
  *G. C. Shephard*  
  Page 93

### Notes 100.01 to 100.15

- **Heronian triangles**  
  *Emrys Read*  
  Page 103

- **Square pyramidal numbers and the multiplication table**  
  *Pawel Jan Piskorz*  
  Page 108

- **Evaluating the probability integral by annular partition**  
  *Hsuan-Chi Chen*  
  Page 111

- **Converses of a ‘curious’ theorem of Cesàro on conditionally convergent series**  
  *J. R. Nurcombe*  
  Page 113

- **Another evaluation of $\zeta (2)$**  
  *Peter Shiu*  
  Page 118

- **Using linear transformations to solve quadratic equations**  
  *Vincent Ferlini*  
  Page 119

- **Yet another proof of the Steiner-Lehmus theorem**  
  *France Dacar*  
  Page 124

- **Pythagoras theorem by sliding a triangle**  
  *Nuno Luzia*  
  Page 126

- **Extremal distance ratios**  
  *Grégoire Nicollier*  
  Page 129

EDITOR IN CHIEF

Dr Paul Harris

MEMBERS

Mrs Gosia Marschall

Ms Marcia Murray

EDITIAL COMMITTEE OF THE MATHEMATICAL GAZETTE

Dr Gerry Leversha

Mr Bill Richardson

Mr Owen Toller

Mr Nick Lord, Dr Stan Dolan

Dr Andrew Jobbings, Professor Adam McBride

Notes 100.01 to 100.15 (continued)

Dice problems with generating function solutions

Russell J. May

A trinomial identity from both a tiling and an expansion

Martin Griffiths

Visual proof of the limit of $f$-mean recurrence sequences

Ángel Plaza

The Steinhaus ‘four-coloue’ tiling

Paul Stephenson

Optimum choice of interpolation points in Newton’s divided difference formula

John M. McNamee

Proof Without Words

Avi Sigler and Moshe Stupel

Teaching Notes

The extended Euclidean Algorithm made easy

Paul Levee and Rudi Penne

Mersenne’s challenge and square roots

John B. Cameron

When is the sum of two triangular numbers triangular?

Nick Lord

Constructing the 15th pentagon that tiles the plane

Nick Lord

Become a Mathematics examiner with Cambridge

Cambridge International Examinations is growing and over 10 000 schools in more than 160 countries are now part of our Cambridge learning community.

To support our continued growth worldwide, we are expanding our examiner network, and inviting teachers to develop their professional practice by becoming Cambridge examiners.

We are welcoming new examiners across the Cambridge curriculum but are in particular need of examiners for our mathematics qualifications.

Requirements are:
- applicants should have teaching experience with a degree in the subject in which they would like to examine
- applicants for senior roles will need previous examining experience
- successful applicants will require a PC and broadband to allow them to access Cambridge on-screen marking systems.

We offer:
- a powerful insight into the teaching and assessment of Cambridge qualifications
- support in developing your own professional practice
- the highest standards of training and support
- freelance opportunities, based on contracts for services for each examination series, which fit around your existing commitments.

To apply, please visit the Cambridge website at www.cie.org.uk/makeyourmark
