

V. M. Alexeyev

BIBLIOGRAPHY

These publications are in Russian unless otherwise stated.

1956

- [1] Exchange and capture in the three-body problem. *Dokl. Akad. Nauk SSSR* **108** No. 5 (1956) 599–602.

1958

- [2] Existence of a bounded function of the maximal spectral type. *Vestnik Moskovskogo Universiteta, Ser. Matem. Mekh. Astron. Fiz, Khim.* No. 5, (1958) 13–15. English translation: *Ergod. Th. & Dynam. Sys.* **2** (1982) 259.

1959

- [3] Some qualitative results in the three and many-body problems. Candidate Dissertation. Moscow State University, Moscow, 1959.

1960

- [4] On the asymptotic behaviour of solutions of slightly non-linear systems of ordinary differential equations. *Dokl. Akad. Nauk SSSR* **134** No. 2 (1960) 247–250. English translation: *Sov. Math. Dokl.* **1** 1035–1038.

1961

- [5] Remarks on criteria of hyperbolic and hyperbolic-elliptic motions. *Vestnik Moskovskogo Universiteta, Ser. Fiz, Astron.* No. 1 (1961) 67–75.
- [6] On an estimate of perturbed solutions of ordinary differential equations, I. *Vestnik Moskovskogo Universiteta, Ser. Matem. Mekh.* No. 2 (1961) 28–36.
- [7] On an estimate of perturbed solutions of ordinary differential equations, II. *Vestnik Moskovskogo Universiteta, Ser. Matem. Mekh.* No. 3 (1961) 3–10.
- [8] A theorem in the theory of perturbed motion. *Astron. Zhurnal* **38** No. 2 (1961) 325–335. English translation: *Soviet Astronomy AJ* **5** No. 2, 242–248.
- [9] On the theory of perturbed motion. *Astron. Zhurnal* **38** No. 4 (1961) 726–737. English translation: *Soviet Astronomy AJ* **5** No. 4, 550–559.
- [10] An estimate of the perturbation of hyperbolic motion in the three-body problem. *Astron. Zhurnal* **38** No. 6 (1961) 1099–1113. English translation: *Soviet Astronomy AJ* **5** No. 6, 841–849.

1962

- [11] On a problem with small parameter. *Vestnik Moskovskogo Universiteta, Ser. Matem. Mekh.* No. 4 (1962) 17–27.
- [12] New examples of capture in the three-body problem. *Astron. Zhurnal* **39** No. 4 (1962) 724–735. English translation: *Soviet Astronomy AJ* **6** No. 4, 565–572.

- [13] An example of 'exchange' in the three-body problem with a negative energy constant. *Astron. Zhurnal* **39** No. 6 (1962) 1102–1111. English translation: *Soviet Astronomy AJ* **6** No. 6, 858–864.

1963

- [14] Final motions in the three-body problem. In *Problems of the Motion of Artificial Celestial Bodies*. Moscow, Academy of Sciences of the USSR, pp. 50–64.

1965

- [15] Generalized three-dimensional problem with two motionless centres. *Bull. Inst. Teor. Astr. Akad. Nauk SSSR* **10** No. 4 (117), (1965) 241–271.
- [16] A theorem on an integral inequality and some of its applications. *Mat. Sbornik* **68** No. 2 (1965) 251–273. English translation: *AMS Trans., Ser. 2* **89** 61–88.

1966

- [17] Temporary captures in the three-body problem. In *Abstracts of Short Communications of ICM Congress in Moscow, 1966*, Section 6, Ordinary Differential Equations, p. 18.
- [18] (With R. E. Vinograd). On freezing method. *Vestnik Moskovskogo Universiteta Ser. Matem. Mekh* No. 5 (1966) 30–35.
- [19] International language of science: some mathematical problems at the International Congress in Moscow. *Zakarpatskaya Pravda*, 3 December 1966.

1967

- [20] Quasi-random oscillations of a one-dimensional oscillator. *Dokl. Akad. Nauk SSSR* **177** No. 3 (1967) 495–498. English translation: *Soviet Math. Dokl.* **8** No. 6, 1421–1424.
- [21] Quasi-random oscillations and the problem of capture in the bounded three-body problem. *Dokl. Akad. Nauk SSSR* **177** No. 4 (1967) 751–754. English translation: *Soviet Math. Dokl.* **8** No. 6, 1470–1473
- [22] On teaching of the elements of mathematical analysis in ninth grade of special board school N18 associated with Moscow State University. In *Mathematical Analysis and Algebra*. Moscow: Prosveschenije, 1967, pp. 48–175.
- [23] Mathematics—remote and familiar. *Komsomoletz*, Petrozavodsk, 31 January 1967 and *Volzhskii Komsomoletz* Kuibyshev, 25 March 1967.

1968

- [24] Invariant Markov subsets for diffeomorphisms. *Uspehi Mat. Nauk* **23** No. 2 (1968) 209–210.
- [25] Quasi-random dynamical systems I: Quasi-random diffeomorphisms. *Mat. Sbornik* **76** No. 1 (1968) 72–134; English translation: *Math. of the USSR-Sbornik* **5** No. 1, 73–128.
- [26] Quasi-random dynamical systems II: One-dimensional non-linear oscillations in a field with periodic perturbations. *Mat. Sbornik* **77** No. 4 (1968) 543–601. English translation: *Math. of the USSR-Sbornik* **6** No. 4, 505–560.

- [27] Quasi-random dynamical systems. Doctoral Dissertation, Moscow State University, Moscow, 1968.
1969
- [28] Quasi-random dynamical systems III: Quasi-random oscillations of one-dimensional oscillators. *Mat. Sbornik* **78** No. 1 (1969) 3–50. English translation: *Math. of the USSR-Sbornik*, **7** No. 1, 1–46.
- [29] On possibility of complete capture in the three-body problem for a negative value of full energy. *Uspehi Mat. Nauk*, **29** No. 1 (1969) 185–186.
- [30] Perron sets and topological Markov chains. *Uspehi Mat. Nauk* **24** No. 5 (1969) 227–228.
- [31] Quasi-random dynamical systems; summary of the doctoral dissertation. *Matem. Zametki* **6** No. 4 (1969) 489–498. English translation: *Math. Notes of USSR Acad. Sci.* **6** No. 4, 749–753.
1970
- [32] Quasi-random oscillations. *Proc. 5th Int. Conf. on Non-linear Oscillations*, 1969, vol. 2. Kiev: Math. Inst. Ukrainian Acad. Sci., 1970, pp. 33–38.
- [33] (With S. V. Fomin). Mikhail Valerievich Bebutov, a biography, *Uspehi Mat. Nauk* **25** No. 3 (1970) 237–239.
1971
- [34] Sur l'allure finale du mouvement dans le problème des trois corps. *Actes du Congrès Internationale des Mathématiciens, Nice*, 1970, tome 2. Paris: Gauthier-Villars, 1971, pp. 893–907. (In French.)
1972
- [35] Quasi-random oscillations and qualitative questions in celestial mechanics. In *Ninth Summer Mathematical School*. Kiev: Math. Inst. of Ukrainian Acad. Sci., 1972, pp. 212–341. English translation: *AMS Trans. Ser. 2* **116**.
1973
- [36] (With A. V. Kochergin and V. M. El'yasberg). On one method of approximation of processes in uniform biological structures. *Automatika i Telemekhanika* No. 8 (1973) 52–61. English translation: *Automation and Remote Control* **34** No. 8, part 1, 1244–1253.
- [37] Quasi-random oscillations of one-dimensional oscillators. In *Selected papers from All-Union Inter-University Symp. on Applied Mathematics and Cybernetics, Gorkii, 1967*. Moscow, Nauka, 1973, pp. 7–11.
1974
- [38] Some multi-dimensional effects in the qualitative theory of differential equations, Talk Summary. *Uspehi Mat. Nauk*, **29** No. 1 (1974) 159.
1976
- [39] Symbolic Dynamics. *Eleventh Summer Mathematical School, Kiev 1976*, 210 pp.
- [40] (With A. V. Vasilyev). On the question of mathematical descriptions of impulse flows in neuron networks. In *Functional Structure of Analysers* (editors: S. V. Fomin, V. I. Guselnikov). Moscow: Isd. MGU, 1976, pp. 86–105.

- [41] (With A. V. Vasilyev). Correlation measures of random impulse flows. The same volume as [40], pp. 106–139.
- [42] (With Y. I. Kifer and A. V. Kochergin). On a transformation of random impulse flows by the threshold neuron. The same volume as [40], pp. 140–161.
1977
- [43] On one class of dynamical systems. *Mathematical Problems in Production Management*, No. 7, pp. 30–35.
1979
- [44] (With M. V. Jacobson). Symbolic dynamics and hyperbolic dynamical systems. Appendix to the Russian edition of a collection of R. Bowen's works. R. Bowen. *Methods of Symbolic Dynamics* Moscow, Mir., 1979, pp. 196–241.
- [45] (With V. M. Tikhomirov and S. V. Fomin). *Optimal Control*. Moscow Nauka, 1979, 429 pp.
1981
- [46] (With nine co-authors) Multi-purpose chart for a heart attack patient. Preprint of Cybernetics Council, USSR Acad. Sci.
- [47] Final motions in the three-body problem and symbolic dynamics. *Uspehi Math. Nauk* 36 No. 4 (1981) 161–182. English translation: *Russ. Math. Surveys* 36 No. 4.
1982
- [48] (With Yu. S. Osipov). Accuracy of Kepler approximation for fly-by orbits near an attracting centre. *Ergod. Th. & Dynam. Sys.* 2 (1982) 263. (In English.)
