### SUMMER MEETING

A combined meeting of the Section of Laryngology with the Section of Otology will be held on Friday and Saturday, June 18th and 19th, at Norwich. The following papers will be read and discussed.

Dr. EBBS (Birmingham):

"Early bronchiectasis in children, and its relation to ear, nose and throat diseases of children."

Dr. BRANFORD MORGAN (Norwich):

"The relation of the ear, nose and throat to the diseases of children."

Mr. E. D. D. DAVIS and Mr. G. H. HOWELLS (London):

"Orbital cellulitis due to sinus infection, and its treatment."

Cases will be shown and it is hoped that certain operations will be performed before the Section. A dinner is being arranged for the Friday evening, and on Saturday afternoon it is hoped to make an excursion on the Broads.

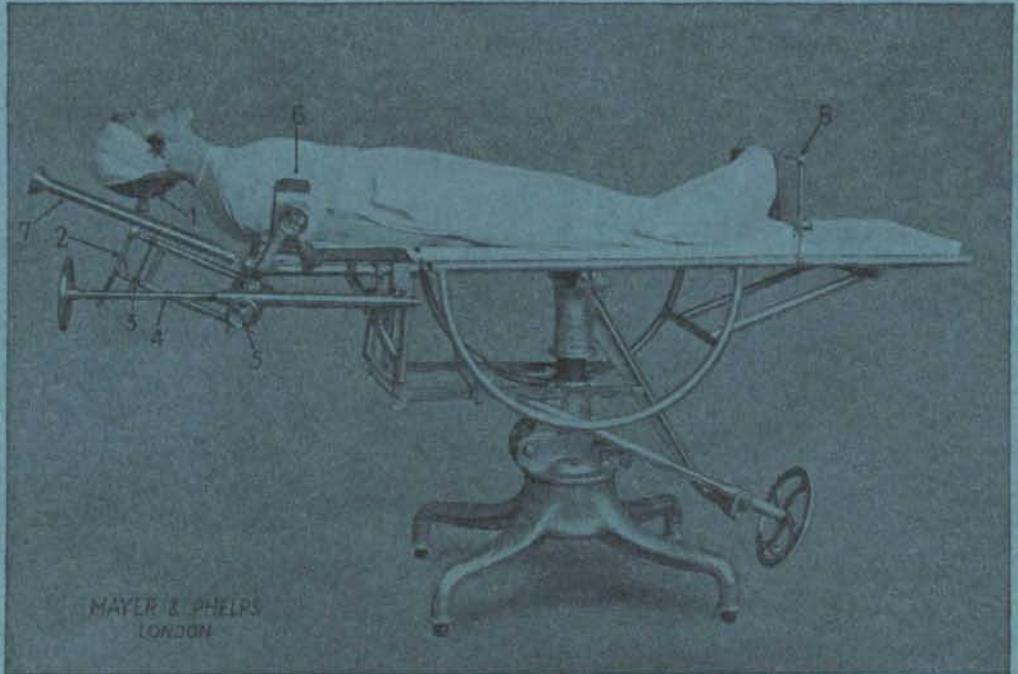

A more detailed programme will be given in the June issue.

# Peroral Endoscopy Table

Fitted with Head Rest for BRONCHOSCOPY, ŒSOPHAGOSCOPY,  
NASAL OPERATIONS Etc.

Designed by V. E. NEGUS, M.S., F.R.C.S.

The head rest enables the operator himself to place the patient in the desired position for a variety of operations. All parts touched by the operator are sterilisable.

The apparatus is an elaboration of Haslinger's Bronchoscopic head rest, but its range of utility is extended to enable the patient to be supported with the shoulders beyond the end of the table for œsophagoscopy, and to be kept in the correct attitude during operations performed in the sitting or semi-sitting position.
