Editor Emeritus EUGENE PAYKEL

Psychological Medicine is a journal primarily for the publication of original research in clinical psychiatry and the basic sciences related to it. These include relevant fields of biological enquiry traditionally associated with medicine but also the various psychological and social sciences. Review articles, editorials and letters to the Editor discussing published papers are also published. Contributions must be in English.

Books for review should be sent to one of the two Editors, depending on country of publication (see instructions for contributors).
