
A Short Life of Kierkegaard

WALTER LOWRIE

This book is a shorter version of the biography by the same author, of which THE TIMES LITERARY SUPPLEMENT said: 'As good an introduction to Kierkegaard as any that is ever likely to be written'. Dr Lowrie gives an account of the history of Kierkegaard's writing and development, of the phases and periods of his work, and the events which helped to shape the nature and course of that work. *Paper covers 22s 6d net*

The Artist's Journey into the Interior

And Other Essays

Erich Heller

The artist's journey is his progress from the unity of form and spirit visible in Greek Sculpture to the rejection of the world of fact and the inwardness of late Romanticism. Professor Heller uses this framework to discuss in a far-reaching investigation the meanings and impulses of Romantic art, literature and thought. The other essays in the volume are related in theme. Schiller's idealism is discussed, and the connection established with the English Romantics through Coleridge; Nietzsche and Wittgenstein are similarly treated

What is the value of Romantic thought and feeling for the twentieth century? In a stimulating comparison of different versions of the Faust story, Professor Heller shows that, of them all, it is Goethe's *Faust* which most profoundly expresses the modern dilemma of 'the morality of knowledge'

'He is saying something very important, and . . . by refusing to listen to what he is saying English intellectuals have impoverished their minds and trivialised their speculations'—*Philip Toynbee, Observer* 42s

John Hick

EVIL AND THE GOD OF LOVE

'How readable, in spite of its forbidding theme, this book is, and how well Mr Hick writes. It is the most exciting work of its kind that I have read for several years.'—John Raymond (*Sunday Times*)

'Always lucid and honest.'—Philip Toynbee (*Observer*)

'There is not an overweighted or obscure sentence in his four hundred pages...an invitation to fruitful reflection.'—A. M. Farrer (*Guardian*)

'A very thorough-going treatment of the "problem" of evil... most ably and honestly argued.'—John Stewart (*New Society*)

Sartre A Philosophic Study

ANTHONY MANSER

Written in the belief that many of the extreme reactions to Sartre, both on the Continent and in the Anglo-Saxon world, are based on misunderstandings, this book attempts to give a critical exposition of Sartre's thought which will enable the reader to judge for himself the strength and weaknesses of the ideas presented. A full survey is aimed at; it extends from Sartre's strictly philosophic writings to include his novels, plays, theory of literature and political attitudes.

Wordsworth and the Artist's Vision

ALEC KING

Professor King's re-interpretation of the great themes of man and nature in Wordsworth's poetry demonstrates a remarkable correspondence between the comments of visual artists from Constable and Delacroix to the present day on their aims and achievements and the poet's own statements in *The Prelude* and elsewhere.
