GIARDIA AND GIARDIASIS
Biology, Pathogenesis, and Epidemiology
 edited by Stanley L. Erlandsen, University of Minnesota, Minneapolis, and Ernest A. Meyer, Oregon Health Sciences University

CONTENTS: Structure and Physiology: Structure of the trophozoite and cyst, D. E. Feely et al. Metabolism of trophozoites, D. G. Lindmark and E. L. Jorroll. Giardia isozymes, M. A. Bertram et al. Trophozoite motility and the mechanism of attachment, S. L. Erlandsen and D. Feely. Methods of isolating trophozoites and cysts, D. E. Feely. In vitro cultivation of Giardia trophozoites, E. A. Meyer and S. Radulescu. The role of reducing agents and the physiology of trophozoite attachment, F. D. Gillin. Models for excystation, E. A. Meyer and F. W. Schaefer, III. Giardiasis: Symptomatology, diagnosis, and treatment, M. S. Wolfe. Changes in the small intestinal mucosa in giardiasis, J. Gillon and A. Ferguson. Cellular and humoral immunity in giardiasis, I. C. Roberts-Thomson and R. F. Anders. Human Immune responses to Giardia lamblia, P. D. Smith. Antigenicity of Giardia lamblia and the current status of serologic diagnosis of giardiasis, G. S. Visvesvar and C. R. Healy. Animal models for giardiasis, E. A. Meyer et al. Epidemiology: Waterborne outbreaks of giardiasis: current status, G. F. Craun. Detection of Giardia cysts in drinking water: state of the art, W. Jakubowski. Filtration as a barrier to passage of cysts in drinking water, C. S. Logsdon et al. Resistance of cysts to disinfection agents, E. L. Jorroll et al. Direct fecal-oral transmission of giardiasis, R. L. Owen. Evidence for animal reservoirs and transmission of Giardia infection between animal species, P. K. Woo. Giardia lamblia: the transfer of human infections by foods, R. J. Bernard and G. J. Jackson. Some perspectives on the transmission of giardiasis, W. J. Bemrick. Index.

TRICHINELLA AND TRICHINOSIS
 edited by William C. Campbell, Merck Institute for Therapeutic Research, Rahway, N.J.

CONTENTS: Historical introduction, W. C. Campbell. Species, and infraspecific variation, T. A. Dick. Biology, D. D. Despommier. Biochemistry, G. L. Stewart. Anatomical pathology, N. F. Weatherly. Pathophysiology of the gastrointestinal phase, G. A. Castro and C. R. Bullick. Pathophysiology of the muscle phase, G. L. Stewart. The immune response, D. Wakelin and D. A. Denham. Antigens, D. S. Silberstein. Chemotherapy, W. C. Campbell and D. A. Denham. Clinical aspects in man, Z. S. Pawlowski. Immunodiagnosis in man, I. Ljungström. Epidemiology I: modes of transmission, W. C. Campbell. Epidemiology II: geographic distribution and prevalence, C. W. Kim. Control I: public health aspects (with special reference to the United States), J. C. Leighty. Control II: surveillance in swine and other animals by muscle examination, W. J. Zimmermann. Control III: surveillance in swine by immunodiagnostic methods, E. J. Ruitenber et al. Appendix I: Synopsis of morphology, D. D. Despommier and W. C. Campbell. Appendix 2: Laboratory techniques, L. S. Blair. Index.

IMMUNOBIOLOGY OF PARASITES AND PARASITIC INFECTIONS

edited by John J. Marchalonis, Medical University of South Carolina, Charleston
 Volume 12 in the series Contemporary Topics in Immunobiology.

CONTENTS: Natural resistance to animal parasites, J. F. Albright and J. W. Albright. Intracellular mechanisms of killing, N. Nogueira. Induction and expression of mucosal immune responses and inflammation of mucosal immune responses and inflammation of parasitic infections, D. Befus and J. Bienstock. Antigenic characterization of plasmodia, L. H. Perrin et al. Roles of surface antigens on malaria-infected red blood cells in evasion of immunity, R. J. Howard and J. W. Barnwell. Murine T-cell responses to protozoan and metazoan parasites: functional analysis of T-cell lines and clones specific for Leishmania tropica and Schistosoma mansoni, J. A. Louis et al. Immunobiology of African trypanosomiasis, C. E. Roelants and M. Pinder. Rodent models of filariasis, M. Philipp et al. Examination of strategies for vaccination against parasitic infection or disease using mouse models, C. F. Mitchell et al. Immunity in schistosomiasis: a holistic view, R. T. Damian. Immunopathology of parasitic diseases: a conceptual approach, S. M. Phillips and E. G. Fox. Cellular immunity to malaria and Babesia parasites: a personal viewpoint, A. C. Allison. Index.

0-306-41418-X/518 pp./ill./1984/\$59.50

CRITICAL REVIEWS IN TROPICAL MEDICINE

edited by R. K. Chandra, Memorial University of Newfoundland

Volume 1

CONTENTS: Priorities for medicine and health in the tropics, C.E.C. Smith. African trypanosomiasis, C. E. Roelants and R. O. Williams. Shigellosis, G. Kusch. Giardiasis, H. I. Desai and R. K. Chandra. Immunopathology of leprosy, J. L. Turk. Host resistance to malaria, K. N. Brown. Idiopathic small intestinal disease in the tropics, S. J. Baker. Tropical splenomegaly, N. C. Nayak. Immune complex nephropathy in the tropics, J. L. Ngu and J. F. Soothill. Nutrition and work performance, J. Parizková. Multisectoral nutrition interventions: a policy analysis perspective, B. F. Johnston. Burkitt's lymphoma, B. O. Osumkoya. Index.

0-306-40959-3/412 pp./ill./1982/\$49.50

Volume 2

CONTENTS: The special programme for research and training in tropical diseases, D. S. Rowe. Infant and child mortality in developing countries, T. Dyson. Oral rehydration therapy, D. Mahalanobis. Functional consequences of iron deficiency: non-erythroid effects, R. K. Chandra and D. Vyas. Hypolactasia: geographical distribution, diagnosis and practical significance, C. C. Cook. Immune response to Leishmania, R. Behin and J. Louis. Immunological alterations in Chagas' disease, J. A. O'Daly and J. Azocar. Immunity to helminths and prospects for control, D. Wakelin. Structured vaccines for control of fertility and communicable diseases, C. P. Talwar. Index.

ACADEMIC PRESS

ADVANCES IN PARASITOLOGY

J. R. Baker and R. Muller

Volume 22

1983, 416pp., \$59.00/£42.50 (UK only), ISBN: 0.12.031722.2

CONTENTS: *Recent Observations on the Behaviour of Certain Trypanosomes within their Insect Hosts*, D. A. Evans and D. S. Ellis. *Cell-Mediated Killing of Protozoa*, K. J. I. Thorne and J. M. Blackwell. *Sexual Development of Malarial Parasites*, R. E. Sinden. *The Genetic Basis of Diversity in Malaria Parasites*, D. Walliker. *The Dynamics of Transmission*, J. R. Lawson and M. A. Gemmel. *Hydatidosis and Cystercercosis: Lipid Metabolism in Parasitic Helminths*, G. J. Frayha and J. D. Smyth. **Subject Index.**

Volume 23

1984, 264pp., \$40.00/£27.00 (UK only), ISBN: 0.12.031723.0

CONTENTS: *Setotonin Receptors in Parasitic Worms*, T. E. Mansour. *The Piroplasms: Life Cycle and Sexual Stages*, H. Mehlhorn and E. Schein. *Metabolism of Entamoeba Histolytica Schaudinn, 1903*, R. E. Reeves. *Cell-Mediated Damage to Helminths*, A. E. Butterworth.

Prices subject to change without notice

PARASITOLOGY

BACK VOLUMES. Vols. 1–39: Inquiries should be addressed to Wm. Dawson & Sons Ltd, Cannon House, Folkestone, Kent. Vols. 40 onwards: quotations for parts still in print may be obtained from the Cambridge or New York offices of the Cambridge University Press.

COPYING. This journal is registered with the Copyright Clearance Center, 21 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per-copy fee of \$05.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0031–1820/85/0080–0001 \$05.00.

ISI TEAR SERVICE, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

FOR ALL OTHER USE, permission should be sought from the Cambridge or New York offices of the Cambridge University Press.

CLAIMS for missing issues can only be considered if made immediately after receipt of the subsequent issue.

ADVERTISING. Details of advertising in *Parasitology* may be obtained from the publisher.

PARASITOLOGY

Volume 90, Part 2, April 1985

CONTENTS

PAGE

GABALDON, A., ULLOA, G. and ZERPA, N. <i>Fallisia (Plasmodioides) neotropicalis</i> subgen.nov. sp.nov. from Venezuela	217
OUAISSI, M. A., DUTOIT, E., VERNES, A., GUERRET-STOCKER, S. and CARRON, A. <i>In vitro</i> inhibition of <i>Plasmodium falciparum</i> merozoite invasion by human plasma fibronectin	227
WILLIAMS, R. B. <i>Plasmodium gallinaceum</i> and subsequent <i>Eimeria acervulina</i> infections in chickens are not synergistic	237
MILLOTT, STEPHANIE M. and COX, F. E. G. Interactions between <i>Trypanosoma brucei</i> and <i>Babesia</i> spp. and <i>Plasmodium</i> spp. in mice	241
WHITELAW, D. D., MOULTON, J. E., MORRISON, W. I. and MURRAY, M. Central nervous system involvement in goats undergoing primary infections with <i>Trypanosoma brucei</i> and relapse infections after chemotherapy	255
EVANS, N. A. The influence of environmental temperature upon transmission of the cercariae of <i>Echinostoma liei</i> (Digenea: Echinostomatidae)	269
MATTHEWS, P. M., MONTGOMERY, W. I. and HANNA, R. E. B. Infestation of littorinids by larval Digenea around a small fishing port	277
JONES, JANET J. and KUSEL, J. R. The inheritance of responses to schistosomiasis mansoni in two pairs of inbred strains of mice	289
BICKLE, Q. D., ANDREWS, B. J., DOENHOFF, M. J., FORD, M. J. and TAYLOR, M. G. Resistance against <i>Schistosoma mansoni</i> induced by highly irradiated infections: studies on species specificity of immunization and attempts to transfer resistance	301
MOLONEY, N. A., BICKLE, Q. D. and WEBBE, G. The induction of specific immunity against <i>Schistosoma japonicum</i> by exposure of mice to ultraviolet attenuated cercariae	313
BICKLE, Q. D. and ANDREWS, B. J. Resistance following drug attenuation (Ro 11-3128 or oxamniquine) of early <i>Schistosoma mansoni</i> infections in mice	325
MERCER, J. G. and CHAPPELL, L. H. <i>Schistosoma mansoni</i> : effect of maintenance <i>in vitro</i> on the physiology and biochemistry of adult worms	339
BASCHONG, WERNER. Changes in the surface of <i>Dipetalonema viteae</i> (Filarioidea) during its development as shown by comparative peptide mapping	351
NICHOLLS, C. D., LEE, D. L. and SHARPE, M. J. Scanning electron microscopy of biopsy specimens removed by a colonoscope from the abomasum of sheep infected with <i>Haemonchus contortus</i>	357
RICHARDS, K. SYLVIA and ARME, C. Phagocytosis of microvilli of the metacystode of <i>Hymenolepis diminuta</i> by <i>Tenebrio molitor</i> haemocytes	365
KENNEDY, C. R. Site segregation by species of Acanthocephala in fish, with special reference to eels, <i>Anguilla anguilla</i>	375
YOUNG, A. S., DE CASTRO, J. J., BURNS, CASEY and MURPHY, D. L. Potential of ear tags impregnated with acaricides for control of the brown ear tick (<i>Rhipicephalus appendiculatus</i>) infesting cattle	391
CHIERA, J. W., NEWSON, R. M. and CUNNINGHAM, M. P. Cumulative effects of host resistance on <i>Rhipicephalus appendiculatus</i> Neumann (Acarina: Ixodidae) in the laboratory	401
