## CONTENTS

<b>Karl Byleen</b> , Embedding any countable semigroup without idempotents in a 2-generated simple semigroup without idempotents	121
<b>R. C. Smith</b> , Toeplitz operators on abstract Hardy spaces	129
<b>R. J. Higgs</b> , On the degrees of projective representations	133
<b>T. S. Blyth and J. C. Varlet</b> , The ideal lattice of an <i>MS</i> -algebras	137
<b>Volker Wrobel</b> , Joint spectra and joint numerical ranges for pairwise commuting operators in Banach spaces	145
<b>Steven J. Pride</b> , Star-complexes, and the dependence problems for hyperbolic complexes	155
<b>M. J. Crabb and C. M. McGregor</b> , Polynomials in a hermitian element	171
<b>R. J. Higgs</b> , Groups whose projective character degrees are powers of a prime	177
<b>M. P. Stannett</b> , The Stone-Čech compactification of the rational world	181
<b>M. P. Stannett</b> , Representations of spaces as function spaces	189
<b>J. P. Wilkinson</b> , Injective endomorphisms and maximal left ideals of left Artinian rings	195
<b>B. Brown and P. M. Higgins</b> , Finite full transformation semigroups as collections of random functions	203
<b>L. Astey, S. Gitler, E. Micha and G. Pastor</b> , On Chern classes of stably fibre homotopic trivial bundles	213
<b>José L. Gómez Pardo and Nieves Rodríguez González</b> , QF-3 endomorphism rings of $\Sigma$ -quasi-projective modules	215
<b>Michael C. Slattery</b> , Character degrees and derived length in $p$ -groups	221
<b>Shigeaki Tsuyumine</b> , Automorphy factors for a Hilbert modular group	231
<b>Lex E. Renner</b> , Representations of rank one algebraic monoids	237
<b>R. W. Cross</b> , Some continuity properties of linear transformations in normed spaces	243

## GLASGOW MATHEMATICAL JOURNAL

The *Glasgow Mathematical Journal* is the continuation of the *Proceedings of the Glasgow Mathematical Association*. It was founded in 1952 by the late Professor T. M. MacRobert and published with the support of the University Court of the University of Glasgow. The present name was adopted in 1967 and since 1987 the *Journal* has been owned by the Glasgow Mathematical Journal Trust, an independent charitable trust. Each volume of the *Journal* comprises three parts (published in January, May and September) totalling over 300 pages.

The prepaid subscription for each Volume is £35 in U.K., £45 or U.S.\$80 overseas, post free. Single parts can be supplied at a cost of £16 in U.K., £20 or U.S.\$35 overseas, net.

Copies may be ordered direct from the publisher or from any bookseller.

### *Information for Contributors*

The *Glasgow Mathematical Journal* invites submission of papers in any branch of Pure or Applied Mathematics. Contributions from all parts of the world are welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current issues of the *Journal*, especially with regard to references, tables and figures.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, publisher, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination*.

Text figures must be suitable for photographic reproduction and supplied separate from the text but allocated clearly to sections of the text.

Contributors receive a set of proofs, together with an order form for offprints. Fifty offprints are supplied free; additional copies will be supplied at cost if ordered prior to publication. Excessive corrections may be charged to the contributor.

Manuscripts (preferably two copies) should be sent to:

THE EDITORS,

GLASGOW MATHEMATICAL JOURNAL,

UNIVERSITY OF GLASGOW, DEPARTMENT OF MATHEMATICS,

UNIVERSITY GARDENS, GLASGOW G12 8QW, U.K.
