Abstracts

International Psychogeriatrics is abstracted and indexed in: Social Work Abstracts, Current Contents: Social and Behavioral Sciences, Social Services Abstracts, Science Citation Index; Current Contents: Social and Behavioral Sciences, Social Services Abstracts, Social Work Abstracts, Scopus and Psychological Abstracts. This journal is covered by the British Psychological Society's Journal Citation Measures; it is included in the Journal Citation Reports (Science Edition).

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, psychogeriatric contributions from all over the world of mental health and aging. Original research papers are particularly welcome.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from abstracts and book reviews, which are commissioned, contributions to International Psychogeriatrics are spontaneously written and submitted by authors. Papers are reviewed by two or more referees selected by the Editor-in-Chief. As a present, about half of the papers submitted are accepted for publication.

This journal is an English-language one and is published to foster communication among people who are interested in the psychology of aging. Original research papers are particularly sought. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. International Psychogeriatrics uses the spelling of American English.

Funding

Articles that are not prepared in accordance with these guidelines will not be considered.
