
THE EMBO JOURNAL

An authoritative international journal published monthly for the European Molecular Biology Organisation

- Manuscripts typeset and published within 12 weeks of acceptance
- Large American quarto format with papers printed on high quality artpaper
- No page charges
- Issues mailed by air to all non-European subscribers
- Reduced subscription rates for individuals
- Listed in *Current Contents/Life Sciences*

The EMBO Journal is published monthly for the European Molecular Biology Organisation and provides rapid publication for reports of significant original research in molecular biology and related areas. More specifically, papers cover biochemistry, cell and developmental biology, molecular genetics of eukaryotes, prokaryotes and organelles, methodology, immunology, structural biology, neurobiology and virology. Only research reports of the highest quality are published and access to the journal is essential for molecular biologists everywhere.
