Instructions for contributors
IJAS publishes research on Asia, primarily in the social sciences and humanities. The Journal is particularly interested in locating contemporary change within a historical framework, especially using interdisciplinary approaches, and promotes comparative studies involving the various regions of Asia. While the Journal will publish scholars from around the world, it aims to focus attention on the work of Asian scholars, in order to encourage multi-directional scholarly communication in Asian studies. IJAS seeks both original papers and survey articles that fall within its scope. Since the Journal is attempting to cross methodological boundaries, it will welcome papers that develop new methodologies within their general approach. For further information, visit www.ioc.u-toyko.ac.jp/pub/ijournal_as/journal.htm

Manuscript preparation
Papers must be in English and in principle no more than 12,000 words in length, including footnotes, normally to be submitted by email attachment as a Word file. The title of the manuscript, author’s name, institutional affiliation, address, email address, an abstract of up to 200 words, and a list of six to eight key words should appear at the top of the file. Submissions, or enquiries about prospective submissions, may be sent to the Editors via ijas@ioc.u-toyko.ac.jp.

Text conventions
It is essential that contributors observe the journal’s text conventions closely. Contributors should refer to the Journal’s rules of citation and points of style, which can be found at http://assets.cambridge.org/IJIL/ijs_16/pdf. In order to facilitate comprehension among the broadest possible readership, contributors will normally be expected to provide Chinese or Japanese fonts for terms, bibliographical references, names of places and personages, etc where applicable.

Proofs
Only essential typographical or factual errors may be changed at proof stage. Resist the temptation to revise or add to the text. The publisher reserves the right to charge the contributor if alterations are made at proof stage. Production of traditional offprints can be ordered during the production stage for a small fee.
