

# INFECTION CONTROL<sup>AND</sup> HOSPITAL EPIDEMIOLOGY

Volume 10, Number 10 • October 1989

## EDITORIAL

### **Iodophor Antiseptics: intrinsic Microbial Contamination with Resistant Bacteria**

Roger L. Anderson, PhD

## ORIGINAL ARTICLES

### ***Pseudomonas aeruginosa* Infections Associated with Use of Povidone-Iodine in Patients Receiving Continuous Ambulatory Peritoneal Dialysis**

Angella Goetz, RN, MNEd; Robert R. Muder, MD

### **Subungual Bacteria of the Hand: Contribution to the Glove Juice Test; Efficacy of Antimicrobial Detergents**

J.J. Leyden, MD; K.J. McGinley, MS; S.G. Kates, MD; K.B. Myung, MD

### **Nosocomial Bloodstream Infection at a Veterans Hospital; 1979 to 1987**

Joseph M. Mylotte, MD; Donald White, PhD; Carolyn McDermott, BSN; Carolyn Hodan, BA

### **Annual Tuberculin Skin Testing of Employees at a University Hospital: A Cost-Benefit Analysis**

Issam Raad, MD; Janet Cusick, RN; Robert J. Sherertz, MD; Mouin Sabbagh, MD; Nora Howell, RN

---

The Official Journal of The Society of Hospital Epidemiologists of America

Time  
spent  
in the O.R.  
shouldn't be  
hazardous  
duty.

Your staff is exposed to infectious fluids and waste every day. It's part of the job.

That's why Baxter Operating Room Division offers a complete line of products and services designed to protect both staff and patient.

Products like our Medi-Vac® suction canister system. Our Jackson-Pratt® closed wound drainage system, and Pour-Safe™ exudate disposal bags. All are designed for safe collection, retention and disposal of infectious waste.

In addition, Convertors® poly-reinforced impervious gowns, and drapes with fluid collection pouches help protect staff and patient during fluid-intense procedures. Iso•Bac® absorbent reinforcement in our drapes prevents strike-through and reduces pathogenic growth.

For staff safety and reduction of disposal costs, we also supply training videos and seminars on segregation and minimization of infectious waste.

What we're doing to make the O.R. safe is considerable. But then, consider that the Operating Room Division is made up of three of the most well-known names in the business: Convertors/Custom Sterile, Pharmaseal® Surgical and V. Mueller® Together,

we're uniquely qualified to help you with any clinical or business issues you face.

To find out more about how we're taking the hazard out of hazardous duty, contact your local Baxter Operating Room Division sales representative, or write Baxter Healthcare Corporation, Operating Room Division, 1500 Waukegan Rd., McGaw Park, IL 60085.

Operating Room Division

As of Volume 1, Number 1, INFECTION CONTROL AND HOSPITAL EPIDEMIOLOGY is listed in *Index Medicus*, *Current Contents—Clinical Practice*, *Hospital Literature Index*, and *Cumulative Index to Nursing and Allied Health Literature*.

Recommended by all major scope manufacturers

# Sporicidin®

## Requires No Heat

Compare for 100% TUBERCULOCIDAL ACTIVITY

	Temperature	Immersion Time	Dilution	Reuse Life
<b>Sporicidin®</b> (EPA Reg. No. 8383-5)	68°F and above (True Room Temperature)	10 Minutes	1:16	30 Days
<b>CIDEX®</b> (EPA Reg. No. 7078-1)	77°F Requires Heat	45 Minutes	Full Strength	14 Days

100% Hospital Level  
Disinfection for  
instruments and  
equipment in the  
O.R. and  
respiratory therapy

**Note: Because of confusion  
created in the marketplace,  
EPA issued this letter to  
reaffirm the label claims  
of Sporicidin.**

"Sporicidin is currently registered with EPA as a cold sterilizing solution and concentrated disinfectant, (for endoscopes, respiratory equipment, etc.), based on test results from EPA prescribed tests for such products... at this use dilution (1:16), the product is effective against bacteria, pathogenic fungi, tubercle bacillus and viruses (those specifically tested) in 10 minutes at 20°C/68°F and above."

EPA letter 11/22/88

**Sporicidin®**  
**INTERNATIONAL**

12000 Old Georgetown Road • Rockville, MD 20852

For Information: 1-800-424-3733

"All Sporicidin disinfectant products kill HIV-1 (AIDS virus) on pre-cleaned environmental surfaces." (EPA accepted on 2/6/89)
