Cambridge’s sociology list is one of the longest established and most respected in the world.

Including leading authors such as Michael Mann, Anthony Giddens, Charles Tilly, Theda Skocpol and Margaret Archer, our books list has particular strengths in social theory, historical sociology, political sociology and research methods.

This is complemented by a cluster of leading journals including European Journal of Sociology, Journal of Social Policy and Ageing & Society.

GUIDELINES FOR AUTHORS

GUIDELINES FOR AUTHORS

Contributions to Children Australia from those interested in the wellbeing of children, young people and their families are encouraged. The preferred length of paper submitted is 3000-8000 words, depending on type and purpose of the paper. Longer papers on topics of particular significance may be accepted in consultation with the editors.

Manuscripts may be accepted for publication, returned for revision or rejected. However, every effort will be made to help authors bring their manuscript up to the required standard for publication. Minor amendments may be made by editorial staff following review to ensure that reasonable standards of content, presentation and readability are maintained. The editors' decision is final.

In addition to the above, Children Australia welcomes brief reports (500–1500 words) on program development, policy development or research. Acceptance for publication will be on the basis of review by the editorial team.

COPYRIGHT: It is a condition of publication that copyright is assigned to the author(s) by the publisher. Copyright assignment forms will be sent to authors on receipt of their papers.

GENERAL STYLE GUIDELINES

2. Uncommon abbreviations and acronyms should be explained. Full stops should not be used in abbreviations or acronyms (e.g., NSW).

3. Use single quotation marks to introduce a word or phrase used as an ironic comment, as slang, or which has been coined. Use quotation marks the first time a word or phrase is used; do not use them again. Do not use quotation marks to introduce a technical or key term. Instead, italicise the term.

4. Do not use any footnotes. Endnotes should be kept to a minimum and listed at the end of the text under the centred heading ‘Endnotes’. Acknowledgements should be placed at the end of the article with a separate heading.

5. A list of figure captions should follow the tables in the manuscript.
