

Index of Subjects

- Adjuvant activity of Gram-negative organisms 411
 Air disinfection and the common cold, 341
 Air hygiene: blanket disinfection and, 85
 Airborne infection: method for measuring, 249
 α -Amylase: destruction of, in eggs, by pasteurization, 153
 α -Amylase in eggs: sensitivity to pasteurization, 145
 Anthrax, penicillin prophylaxis of inhalation, 29
 Antibody, complement-fixing, in Q fever, 359
 Antibody, fluorescent, for detection of *Pasteurella pestis*, 443
 Antibody production, adjuvant activity of bacteria on, 411
 Antibody to toxoplasma, 333
 Antigen D of poliovirus, 113
 Antigens of cowpox virus, 41
 Aseptic meningitis, meningococcal, 501
 Atmosphere of surgical ward, staphylococci in, 387
 Atmospheric ions and comfort, 183
 Australia, South, Q fever outbreak in, 1
- Babies, staphylococcal sepsis in, 105
 Bactericidal compounds which protect cells against freezing, 353
 Bioassay, combining estimates of relative potency in, 379
 Blankets, disinfection of, and air hygiene, 85
 Blankets, hospital, as reservoirs of infection, 401
Bordetella parapertussis in combined vaccine, 289
 Bovine carrier of *Salmonella heidelberg*, 495
- Carriage, nasal, of staphylococci in the R.A.F., 451
 Carrier, bovine, of *Salmonella heidelberg*, 495
 Carrier state, growth of leptospirae in mice in, 435
 Carrier state, development of, in leptospirosis, 427
 Children, common infections in young, 163
 Coe virus and other respiratory infections in R.A.F., 235
 Coliform infections, experimental, in mice, 175
 Coliphages and *Escherichia coli* in oxidation ponds, 279
 Common cold, epidemiology of, 341
 Complement fixation, linear relationships in, 95
 Complement fixation in trachoma, Bedsonia antigen, 21
 Complement-fixing antibody in Q fever, 359
 Compounds, bactericidal, that protect against freezing, 353
 Concentration of polioviruses, 123
 Cotton wool lipid, effect of on tubercle bacilli, 509
 Coxsackie A21 virus and respiratory infections in R.A.F., 235
 Coxsackie A7 virus in Scotland, 323
- D-Antigen of poliovirus, 113
 Diphtheria-tetanus-pertussis vaccine and *Bordetella parapertussis*, 289
 Disinfection of air: effect of, on common cold, 341
 Disinfection of blankets and air hygiene, 85
 Drug resistance in *Salmonella typhimurium*, 301
 Dynamics of salmonella enrichment, 193
- Egg, whole and frozen whole, effect of pasteurization on, 135
 Egg, α -amylase in, destruction of, by pasteurization, 153
 Egg, α -amylase in, sensitivity of, to pasteurization, 145
 Electrophoresis, zone, of enteroviruses, 217

- Enrichment, salmonella: dynamics of, 193
Enteroviruses, zone electrophoresis of, 217
Epidemiology of the common cold, 341
Escherichia coli, number of, in oxidation ponds, 279
- Filters, percolating; effect on bacteria in sewage, 365
Fluorescent antibody for detection of *Pasteurella pestis*, 443
Food hygiene on board ship, 259
- Gram-negative organisms, adjuvant effect of, 411
- Hospital blankets as reservoirs of infection, 401
- Immunity to vaccinia, 483
Immunogenicity of irradiated vaccinia virus, 79
Infant nurseries, Naseptin prophylaxis against staphylococci in, 209
Infection, airborne; measurement of retained dose, 249
Infection, hospital blankets as reservoir of, 401
Infection of mice with *Salmonella typhi*, 311
Infections, coliform, in mice, 175
Infections common in young children, 163
Ions, atmospheric, and comfort, 183
Irradiated vaccinia virus, immunogenicity of, 79
- Kidneys of mice, growth of *Leptospira australis*, B in, 435
Leptospira australis B, growth of, in mouse kidney, 435
Leptospirosis, development of carrier state in, 427
Lipid, cotton-wool, effect of, on tubercle bacilli, 509
- Measurement of retained dose in airborne infection, 249
Meat-works, Q fever outbreak in, 1
Meningococcal 'aseptic' meningitis, 501
Mice, detection of *Pasteurella pestis* in, 443
Mice, experimental coliform infections in, 175
Mice, growth of *Leptospira australis* B in kidneys of, 435
Mice, infection with *Salmonella typhi*, 311
Mine, Yorkshire drift, rat population in, 283
Mothers, staphylococcal sepsis in, 105
- Nasal carriage of staphylococci in R.A.F., 451
Naseptin cream prophylaxis against staphylococci, 209
Nurseries, infant, Naseptin cream prophylaxis in, 209
Nursery, residential, respiratory viruses in a, 51
- Oral poliovaccine, antibody response to, 69
Oxidation ponds, *Escherichia coli* and coliphages in, 279
- Para-influenza virus and respiratory infections in R.A.F., 235
Parapertussis vaccine, 289
Pasteurella pestis, detection of in mice by fluorescent antibody, 443
Pasteurization, destruction of α -amylase and salmonella by, 153
Pasteurization of whole egg, 135
Pasteurization, sensitivity of egg α -amylase to, 145
Penicillin prophylaxis of inhalation anthrax, 29
Percolating filters, effect of on bacteria in sewage, 365
Poliomyelitis, acute, precipitin test in, 69
Poliomyelitis viruses, concentration of, 123
Poliovaccine, oral, assessment by precipitin test, 69
Poliovirus, measurement of D-antigen of, 113

- Poliovirus type 4 infection in Scotland, 323
 Ponds, oxidation, *Escherichia coli* and coliphages in, 279
 Precipitin test for poliomyelitis antibodies, 69
 Prophylaxis, Naseptin cream for staphylococci, 209
 Prophylaxis, penicillin, for inhalation anthrax, 29
- Q fever, outbreak in meat-works in Australia, 1
 Q fever, phase I complement-fixing antibody in, 359
- Rat population of a Yorkshire drift mine, 283
 Resistance, drug, transmissible in *Salmonella typhimurium*, 301
 Respiratory viruses in a residential nursery, 51
 Respiratory virus infections in the R.A.F., 235
 Room size, effect of on epidemiology of common cold, 341
 R.A.F., incidence of sepsis in, 467
 R.A.F., respiratory virus infections, in 1958–60, 235
 R.A.F., staphylococcal nasal carriage in, 451
- Salmonella enrichment, dynamics of, 193
 Salmonellae in egg, destruction of, by pasteurization, 153
Salmonella heidelberg, bovine carrier of, 495
Salmonella typhi infection of mice, dynamics of, 311
Salmonella typhimurium, transmissible drug resistance of, 301
 Scotland, Type A7 Coxsackie virus infection in, 323
 Sepsis, incidence of, in R.A.F., 467
 Sewage, effect of treatment in percolating filters, 365
Shigella sonnei, survival at various temperatures, 35
 Ship, food hygiene on board, 259
 Staphylococcal disease and nasal carriage in R.A.F., 451
 Staphylococcal infection, Naseptin cream prophylaxis, 209
 Staphylococcal sepsis in mothers and babies, 105
Staphylococcus aureus in surgical war atmosphere, 387
 Smallpox vaccine, improved, 473
- Tetanus, combined vaccine, 289
 Toxoplasma antibody, titration of, 333
 Trachoma, Bedsonia antigen complement fixation, 21
 Tubercle bacilli, effect of cotton-wool lipid on, 509
- Ultra-violet irradiated vaccinia virus, 79
- Vaccine, diphtheria-tetanus-pertussis with *Bordetella parapertussis*, 289
 Vaccine, improved smallpox, 473
 Vaccinia, immunity to, induced by small doses of virus, 483
 Vaccinia, ultra-violet irradiated, immunogenicity of, 79
 Ventilation, effect on epidemiology of common cold, 341
- Ward, surgical, *Staphylococcus aureus* in, 387
 Wards, surgical, Naseptin cream prophylaxis in, 209
- Yorkshire drift mine, rat population in, 283
- Zone electrophoresis of enteroviruses, 217
