

# TICKS

## A Monograph of the Ixodoidea

By GEORGE H. F. NUTTALL, M.D., PH.D., Sc.D., F.R.S., CECIL  
WARBURTON, M.A., F.Z.S., W. F. COOPER, B.A., F.Z.S., F.L.S.  
and L. E. ROBINSON, A.R.C.Sc. (London).

*Now ready. PART I. THE ARGASIDAE. With 116 text  
figures and 3 plates. Royal 8vo. 5s. net.*

This book will deal with the Classification, Structure and Biology of Ticks, the study of the group having occupied the authors for several years. Practically all that has been published on the subject has received adequate consideration.

The book will be issued in about four parts, which will be complete in themselves but are designed to form a volume of about 500 pages when all the parts have been published. Each part will be issued in a stiff paper cover and will include a bibliography printed on one side of thin paper so that the references can be conveniently cut out and gummed on index cards. A complete bibliography, including all the publications cited in each part will conclude the volume.

"For those who are not experts on Ticks, but are made practically acquainted with them from the pathological point of view, a comprehensive monograph or handbook of the group has become an urgent requirement, and this need will now be supplied by the monograph which is now being produced by Messrs Nuttall, Warburton, Cooper and Robinson."—*Nature*

### *Quarterly Journal of Medicine*

Edited by

WILLIAM OSLER, J. ROSE BRADFORD, R. HUTCHISON, A. E. GARROD, H. D. ROLLESTON,  
AND W. HALE WHITE.

8s. 6d. net per number. Annual Subscription, 25s. Vol. I, 1907-8, 35s. net.  
Vol. II, 1908-9, 35s. net. Vol. III, 1909-10, 35s. net.

*The Last Days of Charles II.* By R. CRAWFURD. With a  
drawing from the Effigy in Westminster Abbey reproduced in collotype, and  
four other illustrations. Medium 8vo. 5s. net.

*English Medicine in Anglo-Saxon Times: the Fitz-Patrick  
Lectures for 1903.* By J. F. PAYNE. 8vo, with 23 illustrations. 8s. 6d. net.

*The Study of Medicine in the British Isles: the Fitz-Patrick  
Lectures for 1905-6.* By NORMAN MOORE. 8vo, with 13 Collotype plates.  
10s. 6d. net.

*The Treatment of Disease.* By W. OSLER. 1s. net.

*A Handbook of Anatomy for Art Students: fully illustrated.*  
By ARTHUR THOMSON. Third edition, 1906. 8vo, buckram. 16s. net.

**PAUL ALTMANN,**  
 47, LUISEN-STRASSE,  
 ECKE SCHUMANN-STRASSE,  
 BERLIN, N.W., GERMANY,

Manufacturer of all kinds  
 of apparatus and appliances  
 for Chemistry, Bacteriology,  
 Microscopy and Hygiene.

All Goods manufactured in  
 our own workshops.

**COMPLETE OUTFITS**  
 of Bacteriological-Microscopical  
 and Hygieno-Chemical  
 Laboratories.

New SHAKING APPARATUS with  
 Water Motor. Mk. 45.00.

*Full Illustrated Price Lists on Application.*

**SPECIALITY :**

Disinfecting and Sterilising  
 Apparatus.

Thermostats, adjustable for  
 a Constant Temperature.

Autoclaves, Centrifugals.

Apparatus for Clinical  
 Laboratories, etc., etc.

New apparatus for  
**WATER RESEARCHES.**

New apparatus for  
**SERODIAGNOSE.**

**SCIENTIFIC  
 APPARATUS**

**JOHN J. GRIFFIN & SONS, Ltd.,**  
 KINGSWAY, LONDON, W.C.

Makers to the Admiralty, War Office, India, Colonial and Foreign Governments.

Every facility for making Apparatus to Original Specifications.

**ENQUIRIES SOLICITED.**

**SOLE DEPÔT FOR KAHLBAUM'S CHEMICALS.**

*Price-list post-free on application.*

**THE GEOGRAPHY OF DISEASE**

By FRANK G. CLEMOW, M.D. EDIN., D.P.H. CAMB.,

British Delegate to the Ottoman Board of Health, Physician to H.M. Embassy at Constantinople

*Crown 8vo. Cloth. 12 Maps and Charts. Price 15s.*

"Dr Clemow's writings are well known to all epidemiologists and his intimate knowledge of the Russian language has enabled him to study the disease and death records of the vast population of that great European and Asiatic country in a manner which is impossible to most writers. ...In a preface upon the Geography of Disease and the factors which determine it we find discussed in a fascinating fashion the complex nature of the problem."—*Lancet*

# IMMUNITY IN INFECTIVE DISEASES

by

ÉLIE METCHNIKOFF

Foreign Member of the Royal Society of London, Professor at the Pasteur Institute, Paris

Translated from the French by

FRANCIS G. BINNIE

Of the Pathological Department, University of Cambridge

*Royal 8vo. Buckram. Pp. xvi + 592.*

*With 45 figures in the text. Price 18s. net.*

"The present translation of Prof. Metchnikoff's work has been admirably carried out by Mr Binnie....We have here the record of five and twenty years of thoughtful speculation tested by laborious experiment, and no more important book on the subject has ever appeared in the English language."—*Athenaeum*

"It is a scientific monograph of the first order....It would be impertinent to commend his knowledge of the subject, but it is permissible to remark that he here shows himself an expounder of the first order. His marshalling of the multitudinous details is masterly and so lucid that any one who knows the meaning of the words can follow it with ease. And these qualities are enhanced by the true scientific spirit and scrupulous fairness with which arguments are handled."—*Times*

"The Cambridge University Press has done a real service in publishing Élie Metchnikoff's volume....The book is a work which sums up the labours of a quarter of a century of a life of which fifty years have been devoted to scientific pursuits. What that strenuous life has done for humanity can hardly be over-estimated."—*Westminster Gazette*

## REPORTS ON PLAGUE INVESTIGATIONS IN INDIA

ISSUED BY THE ADVISORY COMMITTEE APPOINTED BY THE SECRETARY OF STATE FOR INDIA, THE ROYAL SOCIETY, AND THE LISTER INSTITUTE.

These reports, which form four extra numbers of the *Journal of Hygiene* (price 6s. net each), were made by the commission appointed by the Advisory Committee for the further investigation of some of the problems concerning plague, which commenced its labours in Bombay during the summer of 1905 and directed its attention for the most part to a study of the epizootic spread of plague among rats, the precise relationship of the epizootic to the epidemic and the modes by which the disease may be communicated from the rat to man.
