

CLAY MINERALS

VOLUME 23, NUMBER 4, DECEMBER 1988

CONTENTS

EDITORIAL	347
A. RUIZ-AMIL, E. VILA and F. ARAGON DE LA CRUZ. Study of a chlorite-smectite interstratified mineral by means of the Inter program	349
M. M. ABREU, M. O. FIGUEIREDO, J. C. WAERENBORGH and J. M. P. CABRAL. Oriented overgrowth of acicular maghemite crystals on quartz	357
D. H. DOFF, N. H. J. GANGAS, J. E. M. ALLAN and J. M. D. COEY. Preparation and characterization of iron oxide pillared montmorillonite	367
J. L. PÉREZ-RODRÍGUEZ, E. MORILLO and C. MAQUEDA. Decomposition of alkylammonium cations intercalated in vermiculite	379
J. CORNEJO and M. C. HERMOSIN. Structural alteration of sepiolite by dry grinding	391
J. L. PÉREZ-RODRÍGUEZ, L. MADRID SANCHEZ DEL VILLAR and P. J. SANCHEZ-SOTO. Effects of dry grinding on pyrophyllite.	399
M. I. PRUDÊNCIO, J. C. WAERENBORGH and J. M. P. CABRAL. Chemical and mineralogical characterization of a Cretaceous clay from the Lousã Basin (Central Portugal)	411
P. QUANTIN, J. GAUTHEYROU and P. LORENZONI. Halloysite formation through <i>in situ</i> weathering of volcanic glass from trachytic pumices, Vico's Volcano, Italy	423
M. MORESI and G. MONGELLI. The relation between the terra rossa and the carbonate-free residue of the underlying limestones and dolostones in Apulia, Italy	439
P. GIRESE, A. WIEWIORA and B. LACKA. Minerals phases and processes within green peloids from two Recent deposits near the Congo River mouth	447
E. DUBINSKA and A. WIEWIORA. Layer-silicates in the contact zone between granite and serpentinite, Jordanow, lower Silesia, Poland	459
M. CATHELINÉAU. Cation site occupancy in chlorites and illites as a function of temperature	471
Forthcoming Papers	486
