Corrigendum

Australia’s nutrition transition 1961-2009: a focus on fats - CORRIGENDUM

Shaan S. Naughton, Michael L. Mathai, Deanne H. Hryciw and Andrew J. McAinch

(First published online 30 June 2015).

doi:10.1017/S0007114515001907, Published by Cambridge University Press June 2015

The figure legend for Linoleic acid content in animal products (Fig. 4) in the paper by Naughton et al.\textsuperscript{(1)} was incorrectly labelled. It should have had poultry consumption highlighted with a grey coloured triangle rather than a black triangle to avoid confusion with milk consumption. Corrected figure is displayed below.

Reference

\textbf{Fig. 4.} Animal product linoleic acid content. Major animal source linoleic acid availability expressed as average annual g/d per capita of linoleic acid for the period 1961-2009. • , eggs; ○ , pork; ▲, poultry; ▼, milk; ▲, lamb; ▼, beef.
