PARASITOLOGY publishes original work on parasitology. The scope of the Journal includes papers on morphology; cytology, histochemistry and fine structures; physiology, biochemistry and chemotherapy; and the ecology, life cycle and taxonomy of parasites and their vectors.

EACH ANNUAL VOLUME consists of four parts (published in February, May, August and November) plus an index. Proceedings of the British Society for Parasitology are published in appropriate issues.

SUBSCRIPTIONS may be sent to any bookseller or subscription agent or direct to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1. Subscriptions in the U.S.A. should be sent to the American Branch of the Press, 32 East 57th Street, New York, N.Y. 10022. The subscription price is £6. 10s. net (including postage) for an annual volume of four parts ($23.50 in the U.S.A.), payable in advance; separate parts cost 40s. net or $6.75 each (plus postage).

BACK VOLUMES. Vols. 1—39: Inquiries should be addressed to Wm Dawson & Sons Ltd, 16 West Street, Farnham, Surrey. Vols. 40 onwards: Quotations for parts still in print may be obtained from the London or New York offices of the Cambridge University Press.

Contributors are strongly urged to study the notes for their guidance printed inside the back cover and to follow the recommendations set out there.

The previous part was published on 21 February 1967.
