GENERAL NOTES

The Editors are anxious to improve the clinical aspect of the Journal and would welcome more reports of interesting cases. These clinical records need not be at all elaborate and it would be unnecessary to go minutely into the aetiology or the literature of the subject. Senior Registrars have unique opportunities for seeing a large variety of cases, many with unusual features. It is in many ways regrettable that these should go unrecorded. It is hoped that all those in charge of clinics will help us in this matter and see that such cases are not overlooked.

UNIVERSITY OF EDINBURGH

FACULTY OF MEDICINE

THE LLEWELLYN BEVEN PRIZE

This Prize of the value of about £80 will be open for award in 1957 to a Graduate in Medicine of the University of Edinburgh for the best and approved Essay on the Pathology and Treatment of Ménière’s or other Disease of the Internal Ear.

Professor Gösta Dohlmans—"Experimental studies on the function of the labyrinth".

The Institute will be at home for inspection of the laboratories, research departments and museums during the afternoon of November 22nd, from 2 to 4 p.m.
POST-TONSILLECTOMY COMFORT
Immediate pain relief—Speedier Convalescence

The pain of traumatized tissues following tonsillectomy, demands its own relief—and points the need for analgesia that quickly reaches the irritated area. ASPERGUM provides 'salivary analgesia' through the simple act of chewing—it brings pain-relieving acetylsalicylic acid into intimate and prolonged contact with the tonsillar region, seldom reached even intermittently by gargling. The rhythmic stimulation of muscular action also aids in relieving local spasticity & stiffness; more rapid tissue repair is promoted. Each pleasantly flavoured chewing gum tablet provides 34 grains acetylsalicylic acid, permitting frequent use. Particularly suitable for children.

Aspergum (Category 3)
for more than two decades a dependable and welcome aid to patient-comfort
Ethically promoted in packages of 16 tablets and moisture proof bottles of 36 and 250
WHITE LABORATORIES LTD., 428. SOUTHCROFT ROAD, LONDON, S.W.16
