The North American Conference on British Studies

The Journal of British Studies, founded in 1961, is published by the University of Chicago Press under the auspices of the North American Conference on British Studies (NACBS). It was the result of the imaginative generosity of a Trinity College alumnus, Frederick E. Hasler (Hon. LL.D. 1957), who contributed funds to the college for the specific purpose of establishing a learned periodical in the field of British history.

The North American Conference on British Studies is a scholarly society affiliated with the American Historical Association and open to anyone in the United States and Canada interested in British civilization in its several aspects: historical, archaeological, literary, artistic, political, and sociological. Its North American constituency comprises about eight hundred members drawn from the fifty states and ten provinces. Affiliated with the parent organization are seven regional conferences (New England, Middle Atlantic, South, Midwest, Western, Pacific Coast, and Northwest) each having its own officers and programs and with a combined membership of more than two thousand. The Conference convenes at least once a year in the autumn, usually in joint session with one of its regional affiliates. It is concerned with advancing and promoting all aspects of the study of British history and culture through its publication program and through meetings, book prizes, and association with likeminded organizations in North America, Britain, and elsewhere.

The Conference sponsors a wide variety of publications. Another journal, Albion, issued four times a year at Appalachian State University, Boone, North Carolina, and sent to all members of the parent organization, includes articles, proceedings of all meetings, and book reviews. The Conference's newsletter, the British Studies Intelligencer also sent to members, is published at the University of Arizona and contains notices of meetings devoted to British studies, news of appointments, moves, and retirements, and notes on current publications and research in progress. Other publications appear periodically and will be noted at such times.

Information about membership in the NACBS can be found on the copyright page of this journal.

<td>Interactions of Thought and Language in Old English Poetry</td>
<td>Peter Clemoes</td>
<td>Clemoes brings a lifetime’s close study of Anglo-Saxon texts to this fresh appreciation of Old English poetry, with a radically new interpretation that relates the poetry to the entire Anglo-Saxon way of thinking, and to the structures of its society. He proposes a dynamic principle of Old English poetry, very different from common notions.</td>

<td>Voyages in Print</td>
<td>Mary C. Fuller</td>
<td>In the decades leading up to England’s first permanent American colony, the literature that emerged needed to establish certain realities against a background of skepticism, and it also had to find ways of theorizing the enterprise. Reception of these texts since the Victorian era has often accepted their claims of heroism and mastery; this study argues for a more complicated, less glorious history.</td>

<td>Dante: Monarchia</td>
<td>Prue Shaw, Editor</td>
<td>The whole text is here presented in a new translation by Dante scholar Prue Shaw; it includes up-to-date scholarship on the Latin original, and is accompanied by an introduction and notes. In this new and accessible form, the Monarchia will interest not only Dante specialists, but also students of literary studies, political history and philosophy.</td>

<td>Henry Parker and the English Civil War</td>
<td>Michael Mendle</td>
<td>Mendle situates each of Parker’s significant tracts in its polemical, intellectual, and political context. He also views Parker’s literary work in the light of his career as privado, or intimate advisor, to leading figures of the parliamentary leadership. Parker emerges as a fierce opponent of clerical prevention, a strikingly brutal critic of the common law mind, and a leading proponent of parliamentary absolutism.</td>

<td>Classical Humanism and Republicanism in English Political Thought</td>
<td>Markku Peltonen</td>
<td>Scholars have assumed that those traditions of political thought that emphasize the citizen’s active role exercised no influence in England between the mid sixteenth century and the Civil War in the 1640s. Peltonen challenges that view and argues that early modern Englishmen could characterize their life as one of participation rather than subjectification and portray their community as having several distinctively republican features.</td>

The Making of The Wren Library, Trinity College, Cambridge
From the Seventeenth to the Nineteenth Century
David McKitterick, Editor
The Library at Trinity College is known all over the world for its books, its architecture and its sculpture. Each of these aspects is authoritatively examined in this volume, as David McKitterick, Howard Colvin and Malcolm Baker explore the ways in which seventeenth-century ideas were modified and extended until, by the early nineteenth century, the Library had achieved its present coherent appearance.

The Textuality of Old English Poetry
Carol Braun Pasternack
The modern reader knows Old English poetry as a discrete number of poems, set up and printed in units punctuated as modern sentences, and with titles inserted by modern editors. Carol Braun Pasternack constructs a reading of the poetry that takes into account the format of the verse as it exists in the manuscripts.

Productivity, Education and Training
Facts and Policies in International Perspective
S.J. Prais
Higher standards of schooling and of vocational training are now widely recognized as essential in Britain if benefits are to be gained from advanced technology, and if unemployment rates are to be reduced. This book provides a realistic analysis of what needs to be done, based on visits over the past ten years by expert teams to matched samples of manufacturing plants in Britain and the European Continent, as well as to schools and vocational colleges.

Novels Behind Glass
Commodity Culture and Victorian Narrative
Andrew H. Miller
Drawing on recent work in critical theory, feminism, and social history, this book explains the relationship between the novel and the emergent commodity culture of Victorian England, using the image of the 'display window' and analyzing the work of Thackeray, Eliot, Dickens, Trollope, and Gaskell.

Religion and Devotion in Europe, c.1215 - c.1515
R.N. Swanson
The first one-volume survey in English of medieval religion and devotion concentrates on the spirituality that the church sought to promulgate and control. Its thematic structure provides access to major themes in medieval Catholicism as well as subjects of recent debates.

Fertility, Class and Gender in Britain, 1860-1940
Simon Szreter
This book examines the dramatic fall in family size that occurred in Britain between 1860 and 1940. It overturns current thinking by showing how much variety there was in the occupational patterns of falling fertility. There are entirely new and surprising findings: births were widely-spaced from early in marriage; and sexual abstinence by married couples was far more important than previously imagined.

POPULAR CONTENTION IN GREAT BRITAIN, 1758-1834
Charles Tilly

Between 1750 and 1840 ordinary British people abandoned such time-honored forms of protest as collective seizures of grain, the sacking of buildings, public humiliation, and physical abuse in favor of marches, petition drives, public meetings, and other sanctioned routines of social movement politics. The change created—perhaps for the first time anywhere—mass participation in national politics. Charles Tilly is the first to address the depth and significance of the transmutations in popular collective action during this pivotal era.

"A masterly study of changing forms of popular political action set within overarching arguments about the changing nature of the British state and polity."

MAKING A SOCIAL BODY
British Cultural Formation, 1830-1864
Mary Poovey

Poovey examines one of the conditions that made the development of a mass culture in Victorian Britain possible: the representation of the population as an aggregate—a social body. Drawing on both literature and social reform texts from Victorian Britain, Poovey presents a compelling argument that gender, race, and class should be considered in the context of broader concerns such as how social authority is distributed, how institutions formalize knowledge, and how truth is defined.

The Gentry in England and Wales, 1500-1700
Felicity Heal and Clive Holmes

“Social and cultural history at its best, this is a comprehensive group portrait of the gentry in early modern England and Wales, tracing them through a period that saw the creation of the early modern state, the Protestant Reformation, and civil war and revolution. The authors’ scholarship is impressive, and they have an eye for the telling detail.”

Lords of Parliament
Studies, 1714-1914
Edited by R. W. Davis

The House of Lords is familiar largely in connection with a number of celebrated instances where the Lords—as the concentrated and reactionary residue of aristocratic and episcopal power—succeeded in blocking, obstructing, or otherwise delaying reformist legislation. In fact, as these nine case studies attest, the role of the House of Lords was much more complicated and much less reactionary than conventional wisdom has allowed.
