NAEP periodically publishes a membership directory. This directory is distributed to NAEP members free of charge and sold to non-members for a nominal fee. If you do not want to be included in a directory published in paper or electronic form, check here.

NAEP membership is open to persons engaged in all aspects of the environmental professions in one of the following categories:

General Membership

\$175.00 / year

General membership is open to individuals who have earned an undergraduate or graduate degree and have at least three years experience working in the environmental field. General members may vote and hold office.

College or University _____ Specialties _____

Degree(s) _____ Years of experience _____

Associate Member

\$145.00 / year

Associate membership is open to individuals who do not meet the requirements for general membership.

Student Membership

\$60.00 / year

Student membership is limited to full-time students pursuing an environmental degree. A copy of a current transcript and college ID is required and must accompany the application.

Date entered current degree program: _____ Expected graduation date _____

Anticipated degree _____ College or University _____ Program/Major _____

Senior Membership

\$95.00 / year

Corporate Membership

\$850.00 / year

NAEP Chapters

In addition to membership in the national Association, NAEP maintains a network of regional, state, local and student chapters that offer additional opportunities for professional growth. Check below if you would like to join one of the chapters and include applicable dues in addition to the amount for NAEP membership.

State/Local Chapters

- Alaska \$25/year
- Arizona \$30/year
- California \$150/year
- Florida \$40/year
- Georgia \$30/year
- Hawaii \$30/year
- Illinois \$40/year
- Mid-America (IA, KS, MO, NE) \$15/year
- Mid-Atlantic (DC, MD, VA) \$40/year
- North Carolina \$40/year
- Northwest (OR & WA) \$45/year
- Texas (select one)
- North Texas \$35/year
- Texas \$50/year

Please remember to ONLY use the box below if you are joining FAEP (the Florida Chapter of NAEP) or renewing your FAEP (the Florida Chapter of NAEP) membership. Questions call Tim Bower at 856-283-7816. For FAEP (Florida) State and FAEP Chapter membership is required; however, you may join more than one FAEP local chapter. Please only use this field if you are joining or renewing your FAEP membership. FAEP local chapters rates are as follows:

- FAEP Central Chapter \$20/year
- FAEP Northeast Chapter \$25/year
- FAEP Northwest Chapter \$20/year
- FAEP South Chapter \$15/year
- FAEP South Student Chapter \$10/year
- FAEP Southwest Chapter \$15/year
- FAEP Tallahassee Chapter \$15/year
- FAEP Tampa Bay Chapter \$40/year
- FAEP Tampa Bay Student Chapter \$10/year
- FAEP Treasure Coast Chapter \$20/year

NAEP Membership is individual (not your company's) and non-transferable. NAEP Corporate memberships are available; please contact the national office for more information. Your national dues (see page 1) include a subscription to our journal, Environmental Practice. Chapter dues are collected by NAEP on behalf of the affiliated chapters and passed to them along with your name and address. Some chapters are more active than others.

Code of Ethics and Standards of Practice for Environmental Professionals

The objectives of Environmental Professionals are to conduct their personal and professional lives and activities in an ethical manner. Honesty, justice and courtesy form moral philosophy which, associated with a mutual interest among people, constitute the foundation of ethics. Environmental Professionals should recognize such a standard, not in passive observance, but as a set of dynamic principles guiding their conduct and way of life. It is their duty to practice their profession according to this Code of Ethics.

As the keystone of professional conduct is integrity, Environmental Professionals will discharge their duties with fidelity to the public, their employers, clients, with fairness and impartiality to all. It is their duty to interest themselves in public welfare, and to be ready to apply their special knowledge for the benefit of mankind and their environment.

Creed

The objectives of an Environmental Professional are:

1. to recognize and attempt to reconcile societal and individual human needs with responsibility for physical, natural, and cultural systems.
2. to promote and develop policies, plans, activities and projects that achieve complementary and mutual support between natural and man-made, and present and future components of the physical, natural and cultural environment.

Ethics

As an Environmental Professional I will:

1. be personally responsible for the validity of all data collected, analyses performed, or plans developed by me or under my direction. I will be responsible and ethical in my professional activities.
2. encourage research, planning, design, management and review of activities in a scientifically and technically objective manner. I will incorporate the best principles of the environmental sciences for the mitigation of environmental harm and enhancement of environmental quality.
3. not condone misrepresentation of work I have performed or that was performed under my direction.
4. examine all of my relationships or actions, which could be legitimately interpreted as a conflict of interest by clients, officials, the public or peers. In any instance where I have financial or personal interest in the activities with which they are directly or indirectly involved, I will make a full disclosure of that interest to my employer, client, or other affected parties.
5. not engage in conduct involving dishonesty, fraud, deceit, or misrepresentation or discrimination.
6. not accept fees wholly or partially contingent on the client's desired result where that desired result conflicts with my professional judgment.

Guidance for Practice as an Environmental Professional

As an Environmental Professional I will:

1. encourage environmental planning to begin in the earliest stages of project conceptualization.
2. recognize that total environmental management involves the consideration of all environmental factors including: technical, economical, ecological, and sociopolitical and their relationships.
3. incorporate the best principle of design and environmental planning when recommending measures to reduce environmental harm and enhance environmental quality.
4. conduct my analysis, planning, design and review my activities primarily in subject areas for which I am qualified, and shall encourage and recognize that participation of other professionals in subject areas where I am less experienced. I shall utilize and participate in interdisciplinary teams wherever practical to determine impacts, define and evaluate all reasonable alternatives to proposed actions, and assess short-term versus long-term productivity with and without the project or action.
5. seek common, adequate, and sound technical grounds for communication with and respect for the contributions of other professionals in developing and reviewing policies, plans, activities and projects.
6. determine that the policies, plans, activities or projects in which I am involved are consistent with all governing laws, ordinances, guidelines, plans and policies to the best of my knowledge and ability.
7. encourage public participation at the earliest feasible time in an open and productive atmosphere.
8. conduct my professional activities in a manner that ensures consideration of technically and economically feasible alternatives.

Encourage Development of the Profession

As an Environmental Professional I will:

1. assist in maintaining the integrity and competence of my profession.
2. encourage education and research and the development of useful technical information relating to the environmental field.
3. be prohibited from lobbying in the name of the National Association of Environmental Professionals.
4. advertise and present my services in a manner that avoids the use of material and methods that may bring discredit to the profession

AFFIRMATION

I hereby affirm and agree that I will abide by the Code of Ethics of the Association. I further understand that falsification of the contents of this application will be grounds for rejection and/or termination of my Association membership and revocation of all benefits resulting there from.

Environmental Practice: Call for Papers

INFORMATION FOR CONTRIBUTORS

Environmental Practice is an English-language journal published quarterly by the National Association of Environmental Professionals. It serves an international audience of environmental professionals in practice and research. Environmental Practice is peer reviewed and accepts original manuscripts that have not previously been published in whole or in part in a peer-reviewed journal or in a widely available publication, either print or electronic.

Priority for publication is given to manuscripts that offer clear, insightful views on an environmental problem from an interdisciplinary perspective. *Environmental Practice* seeks especially to publish studies that link data and findings in science and technology with issues of public policy, health, environmental quality, law, political economy, management.

Manuscripts are accepted throughout the year.

Kinds of Manuscripts Sought

Environmental Practice publishes several categories of manuscripts as described below. Two of these categories, Research Articles, and Environmental Reviews and Case Studies, are peer reviewed.

Research Articles: Manuscripts that report the results of systematic study on an environmental problem. Typically, research articles will (a) report the results of formal research or (b) summarize systematic analysis of one or more case studies of particular interest. Environmen-

tal professionals in academic or research laboratory settings may be more likely to submit formal research manuscripts. Professionals in consulting practice, agencies, or other organizations may be more likely to submit manuscripts based on case studies. Under most circumstances, Research Articles will not be over 5000 words of text. Most will be substantially shorter. Tables, figures, and reference lists need not be included in the word count. All Research Articles are peer reviewed. 2

Environmental Reviews and Case Studies:

Manuscripts that organize and summarize a research literature similar to a meta-analysis. These manuscripts help clarify a problem, illustrate policy-making processes, or assist in pointing out discrepancies in the research of the topic over time, with greater emphasis placed on the details of a project than on data analysis. Case study oriented manuscripts provide readers with a unique insight on

a development in the professional field using a case as an example or illustration; simple project reports will not be accepted. Environmental Reviews and Case Studies will generally be about 6000 words of text. Tables, figures, and reference lists need not be included in the word count. All Environmental Reviews and Case Studies are peer reviewed.

Reviews: Manuscripts that portray the content, quality, and significance of books or films of wide interest to environmental professionals and their practices. Reviews should normally not exceed 750 words, but with the approval of the editor may reach 1500 words.

Perspectives from the Field:

Statements of informed opinion intended to provoke discussion and debate on particular issues. These manuscripts will generally range from 500 to 1000 words. Such manuscripts will not be subject to peer review, because they are personal opinion; however, the editor may seek advice on matters of tone and fairness.

Dialogue: Responses to other manuscripts or controversies within the professional or academic discipline. These manuscripts will generally range from 50 to 500 words, and take the form of a letter to the editor. Dialogues will not be peer reviewed, but they may be used to solicit responses from others for simultaneous publication. ■

ENVIRONMENTAL PRACTICE

The journal of the National Association of Environmental Professionals

AIR QUALITY
vol. 19 no. 1 (March 2017)

Air quality affects every individual in the world. In the United States, air quality issues are in the press daily, as well as in the political arena. Concerns over public health issues emanating from air quality and effects of greenhouse gas emissions are on the forefront. Regulatory changes are being proposed and litigation is the norm. How does the environmental professional navigate the ever changing landscape?

The March 2017 issue of *Environmental Practice* will be devoted to the subject of Air Quality. We welcome a variety of perspectives from scholars, practitioners, and students in a variety of fields.

Specific topics that could be addressed include, but are not limited to:

- i. Regulatory changes
- ii. Greenhouse gas emissions
- iii. Innovative approaches to impact assessment and mitigation
- iv. Climate change
- v. Industry case studies
- vi. Remediation and The Clean Air Act – technical and regulatory strategies
- vii. Communication between decision-makers and the public

NAEP 2017 Conference Training Sessions

NAEP is soliciting proposals for Training Sessions to be held on Monday, March 27, 2017.

Training Sessions should be either four or eight hours long and need to be pertinent to the topics normally covered by the conference.

REQUIREMENTS

- A syllabus or detailed description of what will be taught and by whom is required. This will be used for advertising as well as PDH certification approval purposes.
- A CV or Biosketch of each trainer is required.
- Benefits received by the trainers are dependent upon number of paid course registrations. (Benefits are per course not per instructor.)
- Instructors will be asked to commit to teaching the course(s) four (4) weeks prior to the course date.
- Courses will be chosen from those proposals received, and if enough registrations are not received to conduct the course, it will be cancelled prior to the conference.

Direct questions to Lynn McLeod, CEP, PMP, at naep2017@battelle.org.

The NAEP needs “You” to serve as an elected at-large Board Member

NAEP is a voluntary association headed by a Board of Directors. The Board is composed of 12 At-Large elected members from the environmental field, four ex-officio members, and one chapter representative for each 150 NAEP members in the Chapter. All serve without compensation. Each year prior to the annual conference, 4 At-Large Board Members are elected to serve a three-year term of office. At-large Board Members are expected to attend all of the quarterly board meetings and the annual conference. All NAEP At-Large Board Members must be NAEP General Members.

The Board establishes policy for the NAEP and the Managing Director assists the Board in implementing all of the programs and practices of the Association. The Managing Director, as well as the Conference Coordinator, Membership Coordinator, and the Editorial Staff and Publishers of *Environmental Practice* are responsible to the Board.

The NAEP Board of Directors meets four times each year at various locations around the country. At-large Board Members are expected to attend all of the quarterly board meetings and the annual meeting.

Each Board meets for the first time at the end of the annual conference immediately after the installation of officers. The Board meets again at various locations around the country approximately 3, 6, and 9 months after the annual conference. As a voluntary association, there is no reimbursement for travel expenses or the other costs associated with being on the Board of Directors.

Between Board meetings, the Board of Directors is represented by a five-member Executive Committee. The Executive Committee meets at the discretion of the NAEP President, normally twice-monthly by conference calls.

If you would like to become an at-large member of the Board (or retain your current position on the Board) you are required to complete this Self Nomination Form. To be considered, your Self Nomination Form must be completed and submitted by 6:00 PM ET on November 11, 2016. Please submit all forms by email to Tim Bower at naep@bowermanagementservices.com. Forms completed after 6:00 PM ET on November 11, 2016 may be considered, at the discretion of the Elections Committee.

National Association of Environmental Professionals

NAEP Environmental Excellence Awards

Nomination Information

NOMINATION FORM FOR THE

2017 PRESIDENT'S AND NATIONAL ENVIRONMENTAL EXCELLENCE AWARDS

******SUBMISSION DEADLINE OCTOBER 14, 2016******

The National Association of Environmental Professionals (NAEP) is seeking nominations for our annual National Environmental Excellence Awards. We are requesting nominations from you, your company, or agency describing outstanding environmental contributions from applicable projects and programs. It is not necessary for you or your organization to be a member of NAEP and nominations may include projects or programs recognized by others. The Environmental Excellence Award nomination(s) are to be submitted to the NAEP Awards Review Committee and must be received by **October 14, 2016**. Each selected Award Winner will receive a beautiful award plaque and an invitation to briefly address participants at the Annual NAEP National Conference. This year's conference will be held in Durham, North Carolina, March 27-30, 2017.

For complete information and access to the submission form please visit WWW.NAEP.ORG

National Association of Environmental Professionals

NAEP Jim Roberts 2017 Scholarship Nomination Information

******SUBMISSION DEADLINE December 16, 2016******

NAEP announces the kickoff of the competition for the 2017 Jim Roberts Scholarship Award to be awarded at the NAEP 2017 Annual Conference in Durham, NC on March 27-30, 2017. Submissions are due Friday, December 16, 2016. For complete information and access to the submission form please visit WWW.NAEP.ORG

Jim Roberts was a great leader committed to professionalism and ethics in the environmental field. In 2008, the National Association of Environmental Professionals (NAEP) Board of Directors approved the formation of the Jim Roberts Memorial Scholarship Fund to continue Jim's good work and encourage others to follow in his commitment to the industry.

Jim served as President of NAEP from 1996 until 1998 and Vice-President from 2003-2004. He also held other leadership roles including:

- NAEP International Committee Chair (1994-2007)
- NAEP President's Council for Sustainable Success Chair (1997)
- NAEP Ethics Committee Chair (2000 – 2007)
- NAEP Parliamentarian (2006 – 2007)

The Scholarship Committee has made decisions on several aspects of the award. It will be awarded annually at the annual NAEP conference to a student currently enrolled in an environmental program at any accredited university or college in the United States, its territories or Canada. Official applications will be provided on the NAEP website.

Students supply basic information, transcripts and prepare an essay including their personal reflection on how education will support ethical work on environmental problems. The applications are evaluated by the Scholarship Committee and one honoree receives an award between \$500-\$1000, depending on the available endowment. These awards can be used for education expenses including tuition and books.

For complete information and access to the submission form please visit WWW.NAEP.ORG
