# Modelling the impact of COVID-19 and routine MenACWY vaccination on meningococcal carriage and disease in the UK – ERRATUM

Liza Hadley<sup>1</sup> , Andromachi Karachaliou Prasinou<sup>1</sup>, Hannah Christensen<sup>2</sup>, Mary Ramsay<sup>3</sup> and Caroline Trotter<sup>1</sup>

<sup>1</sup>Disease Dynamics Unit, University of Cambridge, Cambridge, UK; <sup>2</sup>Population Health Sciences, University of Bristol, Bristol, UK and <sup>3</sup>UK Health Security Agency, London, UK

DOI: <https://doi.org/10.1017/S0950268823000870>, Published online by Cambridge University Press: 01 June 2023

When this article was originally published in *Epidemiology & Infection* it contained errors in its figures and an error in the display of a reference. Figure 2 has been updated and the sizes of figures 4 and 5 have been adjusted.

The line ‘Two novel studies of age-stratified pandemic mixing were identified: the UK CoMix study and a multi-country study by Del Fava et al. [13] and [14]’ has been updated to ‘Two novel studies of age-stratified pandemic mixing were identified: the UK CoMix study and a multi-country study by Del Fava et al. [13, 14].’

The publisher apologises for this error.
