Instructions for contributors
IJAS publishes research on Asia, primarily in the social sciences and humanities. The journal is particularly interested in locating contemporary changes within a historical framework, especially using interdisciplinary approaches, and promotes comparative studies involving the various regions of Asia. While the journal will publish scholars from around the world, it aims to focus attention on the work of Asian scholars, in order to encourage multi-directional scholarly communication in Asian studies. IJAS seeks both original papers and survey articles that fall within its scope. Since the journal is attempting to cross methodological boundaries, it will welcome papers that develop new methodologies within their general approach. For further information, visit http://journals.cambridge.org/ijas.

Upon acceptance of a paper, the authors will be asked to assign copyright to Cambridge University Press. Contributors should refer to the journal’s rules of citation and points of style, which can be found at http://assets.cambridge.org/JIJAS/ijas_6_6.pdf. In order to facilitate comprehension among the broadest possible readership, contributors will normally be expected to provide Chinese or Japanese fonts for terms, bibliographical references, names of places and personages, etc where applicable.
