Restoring Financial Flows to Latin America.

The recently published report includes papers by William R. An Interpretation of the Brazilian Dilemma

Roberto DaMatta

Carnivals, Rogues, and Heroes, by renowned Brazilian anthropologist Roberto DaMatta, offers a fresh, provocative and multi-faceted interpretation of Brazil.

DaMatta seeks to understand his native country by examining the values, attitudes, and systems that shape the identity of Brazil. A Focus on Women

The World's Women 1970-1990: Trends and Statistics

This unique new publication is an experimental international publication that uses innovative techniques to highlight indicators on women's conditions world-wide, in a form that non-specialists can readily understand. It provides numbers and analyses to inform people everywhere about how much women contribute to economic, political and family life.

Publication of *The World's Women 1970-190* is a noteworthy result of collaboration on the status of women by five UN agencies. Although women's status has improved over the last 20 years, the majority still lag far behind men in power, wealth and opportunity.

The most complete depiction to date of women's conditions and contributions worldwide, this book includes:

- *focus on health, family, education, economics, public life and human settlements;*
- *difference between the sexes' responsibilities and contributions to family, society and economy;*
- *lucid visual presentation of concepts using graphs and charts.*
