ERRATUM

The exhumation of the western Greater Caucasus: thermochronometric study – Erratum

STEPHEN J. VINCENT, ANDREW CARTER, VLADIMIR A. LAVRISHCHEV, SAMUEL P. RICE, TEIMURAZ G. BARABADZE & NEILS HOVIUS

In Vincent et al. (2010) the boxed key shown on Figure 2 includes the following definition:

Symbol diameter = AFT age or lag time (Ma) 
≈ erosion rate (km Ma⁻¹)

The symbol diameter is inversely proportional to the AFT age or time lag and proportional to the erosion rate; the definition should therefore read:

Symbol diameter ∝ 1/AFT age or lag time (Ma) 
∝ erosion rate (km Ma⁻¹)

(see scale bars below)
