EDITORIALS
The dark side of dopaminergic therapies in Parkinson’s disease: shedding light on aberrant salience
Michele Poletti 347

Neurological commentary addressing the article titled “Guidance for switching from off-label antipsychotics to pimavanserin for Parkinson’s disease psychosis: an expert consensus”
Neal Hernandez 352

Psychiatric commentary addressing the article titled “Guidance for switching from off-label antipsychotics to pimavanserin for Parkinson’s disease psychosis: an expert consensus”
Leslie Citrome 355

LETTER TO THE EDITOR
A neuropsychiatric case report: Klüver–Bucy and Gastaut–Geschwind syndromes in one patient with schizophrenia disorder presenting with brain 99mTc HMPAO single-photon emission computed tomography showing bilateral discrete decrease of temporal lobes perfusion
João Gama Marques 358

REVIEW ARTICLES
Emerging treatments for the behavioral and psychological symptoms of dementia
Abhinav Anand, Puneet Khurana, Jasneet Chawla, Neha Sharma and Navneet Khurana 361

Tardive dyskinesia: motor system impairments, cognition and everyday functioning
Martin Straussing, Anne Rosenfeld and Philip D. Harvey 370

Neurodegeneration of brain networks in the amyotrophic lateral sclerosis–frontotemporal lobar degeneration (ALS–FTLD) continuum: evidence from MRI and MEG studies
Francesca Troja, Pierpaolo Somerrino, Giuseppe Somerrino and Crocchino Tedeschi 378

Psychiatric, behavioral, and cognitive disorders in patients with extracranial cancers
Gabriela Prevedello, Bernardo Del Oso, Tommaso Boec, Francesca Cortese, Roberta Farrucci, Valentina Lampl, Chiara Risoli and Alberto Brice 388

GUIDELINES
Guidance for switching from off-label antipsychotics to pimavanserin for Parkinson’s disease psychosis: an expert consensus

ORIGINAL ARTICLE
Social and psychological consequences of not crying: possible associations with psychopathology and therapeutic relevance
Dale C. Hesdorffer, Ad J.J.M. Vingerhoets and Michael R. Trimble 414

Want some CME with that?

STAHLMASTERCLASS

• An online educational program in core areas of psychiatry with interactive readings, short lectures, animations and case studies

• Self-testing and opportunities to claim formal CME credits, all taken at a self-directed speed

• Written and moderated by experts in the field from the Dr. Stahl’s Neuroscience Education Institute and the University of Cambridge

For more information, please go to www.stahlmasterclass.com

Earn CME credits and review essential prescribing information with our apps!

NEI LEARN — for your CME needs

• Unlimited CME credits in mental health
• New activities added regularly
• Multiple learning formats

Download for FREE!

NEI PRESCRIBE — for your point-of-care needs

• 140+ psychiatric medications
• Dedicated Child and Adolescent section
• Continuously updated
• Filter to search for alternative medication options

Download for a FREE 90-day trial!

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)
Aims and Scope
CNS Spectrums covers all aspects of the clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal features focused, in-depth reviews, perspectives and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in man studies, proof of concept studies and translational basic neuroscience studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to CNS Spectrums
All submissions to CNS Spectrums should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated CNS Spectrums ScholarOne Manuscripts website: http://mc.manuscriptcentral.com/cnsspectr

CNS Spectrums will consider and encourage the following types of articles for publication: Reviews—The review article is a comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; Perspectives—The perspective article is a type of review that is a short, focused summary of a single recent advance, a sort of spotlight on the topic, which could be for example, a single point hypothesis or a novel model. It can stimulate debate and new research. Meta-guidelines—A meta-guideline is a “guideline of guidelines” put together by several leading figures in a field in which there are multiple competing guidelines that require synthesis and updating; Original Research—Reports the results of a clinical study and contains original research; the journal will also include Brainstorms and Editorials that shall be commissioned or written by the Editor-in-Chief.

Instructions for Contributors
The Instructions for Contributors are available on the Cambridge Journals Online web site at: http://journals.cambridge.org/CNSifc

Indexing
CNS Spectrums is indexed by Index Medicus/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.
