Journal of Dairy Research

CONTENTS

- Editorial: Hypothetically speaking
  CH Knight 117

- Altered gene expression of epigenetic modifying enzymes in response to dietary supplementation with linseed oil
  H Li and EM Isagha-Avuru 119

- Presence of Mycobacterium avium subs. paratuberculosis DNA in milk used to feed calves in Portugal
  C Leão, A Botelho, E Martins, C Aguilar, I Rebelo, T Nunes and F Beige 124

- Probiotic supplementation effects on milk fatty acid profile in ewes
  M Steensels, E Matz, C Bahr, D Berckmans, A Antler and I Halachmi 128

- Towards practical application of sensors for monitoring animal health: the effect of post-calving health problems on rumination duration, activity and milk yield
  M Steensels, E Matz, C Bahr, D Berckmans, A Antler and I Halachmi 132

- Towards practical application of sensors for monitoring animal health: design and validation of a model to detect ketosis
  M Steensels, E Matz, C Bahr, D Berckmans, A Antler and I Halachmi 139

- Fitting milk production curves through nonlinear mixed models
  M Piccardi, R Macchiavelli, AC Funes, GA Bó and M Balzarini 146

- A novel polymorphism in the oxytocin receptor encoding gene (OXTR) affects milk fatty acid composition in Italian Mediterranean river buffalo
  G Cosanza, NPP Macciotta, A Nudda, A Coletta, L Flamunicco and A Pauciullo 170

- Proliferation-apoptosis balance in Staphylococcus aureus chronically infected bovine mammary glands during involution
  CS Andreotti, SAI Pereyra, SC Sacco, C Baravalle, MS Reina, HH Ortega, LF Caivano and BE Dallard 181

- Comparison of the immune responses associated with experimental bovine mastitis caused by different strains of Escherichia coli
  SE Blum, ED Heller, S Jacoby, D Kellucks and G Lehrer 190

- In vitro ability of mastitis causing pathogens to form biofilms
  S Schönborn, N Wante, J-H Paduch and V Krekeler 198

- Characterisation of penicillin and tetracycline resistance in Staphylococcus aureus isolated from bovine milk samples in Minas Gerais, Brazil
  CL Martini, CC Lange, MMW Brito, JB Ribeiro, LC Mendonça and BK Vaz 202

- Differences in sheep and goats milk microbiological profile between conventional and organic farming systems in Greece
  E Malissova, T Papadopoulos, A Kyriazi, M Mparda, C Sakorafa, A Katsiaris, A Katsiaflaka, M Kyritsi, A Zigras and C Hadjistavrou 206

- Rapid discrimination between buffalo and cow milk and detection of adulteration of buffalo milk with cow milk using synchronous fluorescence spectroscopy in combination with multivariate methods
  SD Velagi, E Eircogi and H Boyaci 214

- Effects of heating and calcium and phosphate mineral supplementation on the physical properties of rennet-induced coagulation of camel and cow milk gels
  M Karray, M Foukani and R Karoui 220

- Effect of homogenisation in formation of thermally induced aggregates in a non- and low-fat milk model system with microparticulated whey proteins
  IC Torres, G Nito, T Nylund, AC Simonsen, A Tolkaš and R Ipsen 229
