

NOTICES

The International Commission on Zoological Nomenclature has received the following **Applications**, which were published in the *Bulletin of Zoological Nomenclature* 47 (4), 20 December 1990 and 48 (1), 26 March 1991. Comment or advice on them is invited for publication in the *Bulletin* and should be sent to the Executive Secretary, ICZN, c/o The Natural History Museum, Cromwell Road, London SW7 5BD, U.K.

Case no. 2747. *Strophomena* de Blainville, 1825 (Brachiopoda): proposed designation of *Leptaena planumbona* Hall, 1847 as the type species.

Abstract. The purpose of this application is to stabilize the name of the Ordovician brachiopod genus *Strophomena* de Blainville, 1825 by designating *Leptaena planumbona* Hall, 1847 as its type species in place of the poorly known species *Strophomena rugosa* de Blainville, 1825.

Case no. 2736. *Haustator* Montfort, 1810 (Mollusca, Gastropoda): proposed conservation.

Abstract. The purpose of this application is the conservation of the turritellid generic name *Haustator* Montfort, 1810 by the suppression of *Aculea* Perry, 1810, an unused senior subjective synonym.

Case no. 2732. *Ceratites nodosus* (Cephalopoda, Ammonoidea): proposed attribution of the specific name to Schlotheim, 1813, and proposed designation of a lectotype.

Abstract. The purpose of this application is to conserve the name of the Triassic ammonite *Ceratites nodosus* (Schlotheim, 1813) in its current usage by designation of a lectotype from Schlotheim's original collection.

The following **Opinion** was published recently in the *Bulletin of Zoological Nomenclature*.

Opinion no. 1633. *Haplocanthosaurus* Hatcher 1903 (Reptilia, Saurischia): conserved.
