

Erratum Awareness and Use of Nutrition Information Predict Measured and Self-Rated Diet Quality of Older Adults in the United States – ERRATUM

Anna Vaudin*, Edwina Wambogo, Alanna Moshfegh and Nadine R Sahyoun

doi:10.1017/S1368980020004681, Published online by Cambridge University Press, 18 November 2020

During production of the above mentioned article, the superscript values of Table 2 were erroneously modified. The correct version is presented below.

Cambridge University Press apologise for this error.

Original:

Table 2 Nutrition awareness and use of nutrition information by socio-demographic and economic characteristics, and OR showing associations of nutrition awareness and use of nutrition information with these characteristics, among adults aged 60 years and above (n 3056), NHANES 2009–2014*

Characteristics	Nutrition awareness (yes), information use (yes) (n 261)	Nutrition awareness (yes), information use (no) (n 727)	Nutrition awareness (no), information use (no) (n 2068)
	Weighted row %		
Gender			
Men	5.9†	27.8	66.3†
Women	13.7†	31.0	55.2†
Age group			
≥ 76 years	6.7†	23.9†	69.4†
60–75 years	11.3†	31.4†	57.3†
Education			
≤ High school/GED	6.5†	20.1†	73.4†
Some college/college +	12.7†	36.0†	51.4†
Employment			
Unemployed	10.6	25.9†	63.5†
Working at a job/business	9.0	38.3†	52.7†
Marital status			
Single, divorced, widowed	10.3	26.5	63.1
Married/partnered	10.0	31.2	58.7
Race/ethnicity			
Non-Hispanic White	10.9†	32.5†	56.7†
Non-Hispanic Black	8.6†	18.4†	73.0†
Mexican American	4.3†	15.8†	79.9†
Others	8.3†	22.0†	69.7†
Monthly poverty level index			
≤ 1.85	7.5†	23.5†	69.0†
> 1.85	11.8†	33.0†	55.2†
Received cash assistance from a state or county welfare programme			
Yes	13.0	23.1	63.9
No	10.1	29.9	60.0
Household food security			
Low and very low food security	5.8†	21.0†	73.2†
Marginal food security	8.7†	17.6†	73.7†
Full food security	10.7†	31.0†	58.3†

**Table 2** *Continued*

Characteristics	Nutrition awareness (yes), information use (yes) (n 261)	Nutrition awareness (yes), information use (no) (n 727)	Nutrition awareness (no), information use (no) (n 2068)
	Weighted row %		
Emergency food last 12 months			
Yes	8.6	16.7†	74.7†
No	10.3	30.3†	59.4†
Home-delivered meals last 12 months			
Yes	6.5	19.8	73.6†
No	10.3	29.9	59.9†
Congregate meals last 12 months			
Yes	10.7	22.5	66.8
No	10.1	30.0	59.9
Received SNAP last 12 months			
Yes	7.1	21.5†	71.4†
No	10.5	30.6†	58.9†
On special diet			
Yes	17.9†	26.9	55.2
No	9.0†	30.7	60.3
Self-rated health			
Excellent/very good	13.0†	36.3†	50.7†
Good	9.5†	27.3†	63.2†
Fair/poor	5.8†	21.0†	73.2†
Self-rated diet			
Excellent/very good	15.0†	30.1	54.9†
Good	8.2†	30.0	61.8†
Fair/poor	2.6†	27.1	70.3†

NHANES, National Health and Nutrition Examination Survey; GED, General Education Development; SNAP, Supplemental Nutrition Assistance Program.

*Significant difference in proportions tested using χ^2 test for categorical variables, percentages across the row may not sum to 100 due to rounding.

†Percentages within a column with unlike superscript letters were significantly different ($P < 0.05$).
