Medicine
Books and Journals from Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

Editorial

Open access: is there a predator at the door?: R Chandra, EW Fisher, TM Jones, DW Kennedy, DH Kraus, JH Krouse, M Link, LK Lustig, BW O'Malley Jr, JF Piccirillo, R Ruben, RT Sataloff, S Schwartz, R Sindwani, RJ Smith, MS Stewart, PC Weber, DB Welling, R Youngs

Review Articles

Nasal changes associated with exercise in athletes: systematic review: P Surda, A Walker, J Limpens, W Fokkens, M Putala

History of intranasal splints: J Lau, HA Elhassan, N Singh

Main Articles

Does non-echo-planar diffusion-weighted magnetic resonance imaging have a role in assisting the clinical diagnosis of cholesteatoma in selected cases?: R Nash, RK Lingam, D Chandrasekharan, A Singh

Collagen matrix as an inlay in endoscopic skull base reconstruction: GM Oakley, JM Christensen, M Windlec, BP Jonker, A Davidson, T Steel, C Teo, RJ Harvey

Electrode design and insertional depth-dependent intra-cochlear pressure changes: a model experiment: P Mittmann, A Ernst, J Todt

Long-term efficacy of standardised specific subcutaneous immunotherapy in children with persistent allergic rhinitis due to multiple allergens including house dust mites: Y Song, J Long, T Wang, J Xie, M Wang, G Tan

Polyps, grommets and eosinophilic granulomatosis with polyangiitis: F Kavanagh, W Hasan, DA Smyth, JE Fenton

The debate continues: a prospective, randomised, single-blind study comparing Coblation and bipolar tonsillectomy techniques: D Wiltshire, M Cronin, N Lintern, KF Fraser-Kirk, S Anderson, R Barr, D Bennett, C Bond

Prevention of pharyngocutaneous fistula in salvage total laryngectomy: role of the pectoralis major flap and peri-operative management: P Siddi, C Sylvander, Fosso, D Reunmakkaew

Setting up a parathyroid multidisciplinary team meeting: one year’s experience, outcomes and learning points: SH Hancox, JD Sinnott, P Kirkland, D Lipscomb, E Owens, DC Howlett

Metastatic cutaneous squamous cell carcinoma of the parotid gland: prognostic factors: AC Coombs, A Butler, RJ Allison

An analysis of true- and false-positive results of vocal fold uptake in positron emission tomography-computed tomography imaging: N Seymour, G Burkill, M Harries

Prognostic factors for therapeutic sialendoscopy: D Cox, L Chan, D Veivers

Clinical Record

Gorham–Stout disease of the temporal bone involving the temporomandibular joint: D Mulvihill, RS Kumar, J Muzaffar, R Irving
