EDITORIAL
Editorial for Weed Science, Volume 65.
William K. Vencill ............................................................................ 1

PHYSIOLOGY/CHEMISTRY/BIOCHEMISTRY
Target-Site Resistances to ALS and PPO Inhibitors Are Linked in Waterhemp (Amaranthus tuberculatus).
Patrick J. Tranl, Chenxi Wu, and Ahmed Sadeque ........................................ 4

First Report of Phenamide-Resistant Annual Bluegrass (Poa annua).
Patrick E. McCullough, Jialin Yu, and Mark A. Czarnecka ............................... 9

Herbicidal Activity of Monoterpines Is Associated with Disruption of Microtubule Functionality and Membrane Integrity.
David Chaimovitsh, Alona Shachter, Mohamad Abu-Abied, Baruch Rubin,
Eimat Sadot, and Nativ Dudai ............................. 19

WEED BIOLOGY AND ECOLOGY
Managing glyphosate-resistant common ragweed (Ambrosia artemisiifolia): effect of glyphosate-phenoxyl tank mixes on growth, fecundity, and seed viability.
Jichul Bae, Robert E. Nurse, Marie-Josée Simard, and Eric R. Page ............... 31

Characterization of Wisconsin Giant Ragweed (Ambrosia trifida) Resistant to Cloransulam.
Stacey M. Marion, Vince M. Davis, and David E. Stollenberg .......................... 41

Seedbank Depletion and Emergence Patterns of Giant Ragweed (Ambrosia trifida) in Minnesota Cropping Systems.
Jared J. Goplen, Craig C. Sheaffer, Roger L. Becker, Jeffrey A. Coultar,
Fritz R. Breitenbach, Lisa M. Behnken, Gregg A. Johnson, and Jeffrey L. Gunnel 52

Predicting Yield Losses in Rice Mixed-Weed Species Infestations in California.
Whitney B. Brim-DeForest, Kassim Al-Khatib, and Albert J Fischer ............... 61

Long-Term Management Affects the Community Composition of Arable Soil Seedbanks.
Roser Rotsches-Lebatla, Laura Armengot, Paul Mader, Jochen Mayer, and Francisco Xavier Sans 73

Christa E. Fettig, and Ruth A. Hufbauer .................................................. 83

Purple Nutsedge (Cyperus rotundus) Tuber Production and Viability Are Reduced by Imazapic.
Theodore M. Webster, Timothy L. Grey, and Jason A. Ferrell .......................... 97

Influence of Soil Moisture Stress on Vegetative Growth and Mycorrhizal Colonization in Hound’s-tongue (Cynoglossum officinalis).
Mina Momayyezi and Mahesh K. Upadhyaya .............................................. 107

Higher Tolerance to Abiotic Stresses and Soil Types May Accelerate Common Ragweed (Ambrosia artemisiifolia) Invasion.
Huseyin Onen, Shahid Farooq, Hikmet Gunal, Cumalı Ozaslan, and Halil Erdem 115

Diversity and Spatial Heterogeneity of Weed Communities in a Sugarcane Cropping System in the Dry Tropics of Costa Rica.
Ramón G. León, Renán Agüero, and Diego Calderón ..................................... 128

Seed Germination, Seedling Emergence, and Response to Herbicides of Triquetrous Murdannia (Murdannia triquetra) in Rice.
Wei Tang, Jie Chen, Jianping Zhang, and Yongliang Lu .................................. 141

WEED MANAGEMENT
Spatial and temporal variability in Powell amaranth (Amaranthus powellii) emergence under strip tillage with cover crop residue.
Erin R. Haramoto and Daniel C. Brainard .................................................. 151

Rodrigo Werle, Kevin Beppo, Melinda K. Yenka, Jeffrey P. Mower, Ismail Dewikat, Amit J. Jha, and John L. Lindquist .......................... 164

Weed Community Dynamics and System Productivity in Alternative Irrigation Systems in California Rice.
Whitney B. Brim-DeForest, Kassim Al-Khatib, Bruce A. Linqquist, and Albert J. Fischer .................................................. 177

Influence of Nitrogen Rate, Seeding Rate, and Weed Removal Timing on Weed Interference in Barley and Effect of Nitrogen on Weed Response to Herbicides.
Vipan Kumar and Prashant Jha .............................................................. 189
Weed Science publishes original research and scholarship in the form of peer-reviewed articles in three international journals. "Weed Science is focused on understanding 'why' phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. "Weed Technology" focuses on understanding "how" weeds are managed. As such, it focuses on more applied aspects concerning the management of weeds in agricultural systems. "Invasive Plant Science and Management" is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for Weed Science include the biology and ecology of weeds in agricultural, forest, aquatic, turf, recreational, right-of-way, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Carlene Chase, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)
Bhargvath Singh Chauhan, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)
Sharon Clay, South Dakota State University, Plant Science Department, Brookings, SD 57007 (2002)
Adam Davis, USDA-ARS, Global Change and Photosynthesis Research, Urbana, IL 61801 (2007)
Franek E. Duryan, USDA-ARS-NPRU, National Center for Natural Products Research, University, MS 38677 (2003)
Anita Dille, Kansas State University, Department of Agronomy, Manhattan, KS 66506 (2013)
Timothy Grey, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)
Marie Jasieniuk, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)
Ramon Leon, West Florida Research and Education Center, University of Florida, Jay, FL 32355 (2016)
John L. Lindquist, Department of Agronomy, University of Nebraska-Lincoln, NE 68583-0817 (2002)
Vijay Nandula, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)
Chris Preston, Australian Weed Management, University of Adelaide, PMB1, Ellen Donmond, SA 5064, Australia (2003)
Dean Riechers, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)
Hilary Sandler, University of Massachusetts-Amherst Cranberry Station, East Wareham, MA 02538 (2008)
Steven Serfelld, USDA-ARS, University of Alaska, Fairbanks, AK, 99775 (2011)
Patrick J. Tranel, Department of Crop Sciences, University of Illinois, 560 E.R.E., Urbana, IL 61801 (2002)
Martin M. Williams II, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

Officers of the Weed Science Society of America

Kevin Bradley, President
Janis McFarland, President-Elect
Rick Boynton, Treasurer
Sarah Ward, Director of Publications
Scott Sensenian, Past President

Weed Science (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 810 East 10th Street, Lawrence, KS 66044-8897 (785)-843-1235. It contains refereed papers describing the results of research that elucidate the nature of phenomena relating to all aspects of weeds and their control. It is published biannually, one volume per year, six issues per year beginning in January.

Weed Science is a subscription service that includes online access to "Weed Science, Weed Technology, Invasive Plant Science and Management"; the online WSSA Newsletter; and the online WSSA Newsletter. Dues should be sent to WSSA, 810 East 10th Street, PO Box 7065, Lawrence, KS 66044-8057 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New members and renewals begin with the first issue of the current volume. Please visit the Weed Science subscription page at https://www.cambridge.org/core/journals/weed-science/subscribe; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Science publishes six times a year by the Weed Science Society of America. Copyright 2017 by the Weed Science Society of America. All rights reserved. Reproduction in part or whole prohibited.
