The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. Weed Science is focused on understanding "why" phenomena occur in agricultural systems. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. Weed Technology focuses on understanding "how" weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. Invasive Plant Science and Management is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for Weed Technology include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide-resistant crops; biological weed control agents; new weed-management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, Stoneville, MS (2020)  
Kevin Bradley, Columbus, MO (2012)  
Burry Brecke, Arc, FL (2013)  
Ian Burke, Pullman, WA (2007)  
Peter Dittmar, Gainesville, FL (2016)  
Steve Fennimore, Salinas, CA (2004)  
Aaron Hager, Urbana, IL (2012)

Brad Hanson, Davis, CA (2013)  
Prudent Ba, Huntley, MT (2016)  
William Johnson, West Lafayette, IN (2007)  
Andrew Kniss, Laramie, WY (2016)  
Patrick McCullough, Griffin, GA (2016)  
Scott McElroy, Stoneville, MS (2012)  
Robert Nance, Opelousa, LA (2016)

Daren Robinson, Bidgwoman, ON (2008)  
Larry Steckel, Jackson, TN (2007)  
Mark Van Kuivil, Georgetown, DE (2013)  
Michael Walsh, Crawley, Australia (2016)  
Camm Willett, Fayetteville, AR (2017)

Tracy Candelaria, Managing Editor

Officers of the Weed Science Society of America

Kevin Bradley, President  
Janice McFarland, President-Elect  
Scott Senseman, Vice President  
Dallas Petersen, Past President  
Brad Hanson, Secretary  
Rick Breeding, Treasurer  
Sarah Ward, Director of Publications  
Mark Bernard, Chair, Constitution and Operating Procedure

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 810 East 10th St., Lawrence, KS 66044-7065. It is published bimonthly, one volume per year, six issues per year beginning in January. Membership includes online access to Weed Technology, Weed Science, Invasive Plant Science and Management, and the online WSSA Newsletter. Dues should be sent to WSSA, 810 East 10th Street, PO Box 7065, Lawrence, KS 66044-7065 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

Cover
Cover crops like oilseed radish (Raphanus sativus L.) are increasing in popularity in many corn and soybean production systems throughout the U.S. Research conducted across 3 seasons in Missouri showed that oilseed radish is one of the most sensitive cover crop species to common herbicides used in the previous corn or soybean crop. For more information, see article in this issue entitled, “Carryover of Common Corn and Soybean Herbicides to Various Cover Crop Species.” Photo by Kevin Bradley.
