ANNUAL ISSUE

Early Career Scholars
in Materials Science

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x 11 in. paper, and saved as .doc, .pdf, .rtf, or .ps files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research Subscription Prices (2017)

[includes on-line web access]

| | USA and Poss. | Non-US | Online Only |
|------------------------------------|------------------|-----------|----------------|
| MRS Regular and Student Members | \$273.00 | \$334.00 | \$105.00 |
| Institutions | \$2053.00 | \$2053.00 | \$1852.00 |

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via the Cambridge Journals Online website. To determine availability, visit the appropriate page for the *JMR* back issue desired (cambridge.org/journal-of-materials-research).

Individual member subscriptions are for personal use only.

Journal of MATERIALS RESEARCH

Editor-in-Chief: Gary L. Messing, *Ceramic materials, The Pennsylvania State University, USA*

Associate Editor, Adrian Mann, *Biomaterials, Rutgers University, USA*

Associate Editor, Jürgen Eckert, *Metallic materials, Montanuniversität Leoben, Austria*

Associate Editor, Linda S. Schadler, *Polymeric materials, Rensselaer Polytechnic Institute, USA*

Lead Editors for Annual Issue: Early Career Scholars in Materials Science

Gary L. Messing, *The Pennsylvania State University, USA*

Jürgen Eckert, *Montanuniversität Leoben, Austria*

Linda S. Schadler, *Rensselaer Polytechnic Institute, USA*

2017 Principal Editors:

Jinju Chen, *Mechanics of soft materials/thin film materials, Nanoindentation Newcastle University, United Kingdom*

Xiaobo Chen, *Photocatalysis and batteries, University of Missouri-Kansas City, USA*

Yang-T. Cheng, *Mechanical behavior, Electrochemical energy storage, University of Kentucky, USA*

Sung-Yoon Chung, *Energy, Electron microscopy, Interface science, KAIST, Korea*

Paolo Colombo, *Pre-ceramic polymers, Porous ceramics, University of Padova, Italy; The Pennsylvania State University, USA*

Franz Faupel, *Functional nanomaterials, VPD, Metallic glasses, University of Kiel, Germany*

Mathias Göken, *Superalloys, Nanomaterials, Nanomechanics, Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany*

Amit Goyal, *Superconductors, Photovoltaics, 2D materials, Self-assembly, State University of New York at Buffalo, USA*

Erik G. Herbert, *Nanoindentation, Small-scale mechanical behavior Michigan Technological University, USA*

Himanshu Jain, *Inorganic glass, Optical, Electrical properties, Lehigh University, USA*

C. Robert Kao, *Metallic materials, Diffusion and joining, National Taiwan University, Taiwan*

Edson Roberto Leite, *Materials chemistry, Nanocrystals, Synthesis, Universidade Federal de São Carlos, Brazil*

Jörg Löffler, *Metallic materials/synthesis and properties, ETH Zurich, Switzerland*

Michele Manuel, *Phase transformations, Materials design, University of Florida, USA*

Michael E. McHenry, *Magnetic materials, Carnegie Mellon University, USA*

Scott T. Misture, *In-situ diffraction, Electrochemically active ceramics, Alfred University, USA*

Sarah E. Morgan, *Polymer surfaces and interfaces, The University of Southern Mississippi, USA*

Paul Muralt, *Thin films, Piezoelectric and ferroelectric materials, Ecole Polytechnique Federale de Lausanne, Switzerland*

Akira Nakajima, *Photocatalysis, Surface wettability, Ceramic processing, Tokyo Institute of Technology, Japan*

Cewen Nan, *Ferroelectric, Multiferroic materials, Tsinghua University, China*

George M. Pharr, *Mechanical behavior, Nanoindentation, University of Tennessee, USA*

Journal of MATERIALS RESEARCH

Volume 32, Number 1, January 13, 2017

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE

- | | | |
|---|---------------------|--|
| 1 | Introduction | Gary L. Messing, Jürgen Eckert, Linda S. Schadler |
|---|---------------------|--|

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE: REVIEWS

- | | | |
|-------|--|---|
| 2–15 | Tuning the interlayer of transition metal oxides for electrochemical energy storage | Veronica Augustyn |
| 16–36 | How to improve the stability and rate performance of lithium-ion batteries with transition metal oxide anodes | Guoyong Wang, Xuning Leng, Shang Han, Yuan Shao, Sufeng Wei, Yan Liu, Jianshe Lian, Qing Jiang |

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE

- | | | |
|-------|---|---|
| 37–44 | Atomic layer deposition of vanadium oxide thin films from tetrakis(dimethylamino)vanadium precursor | Xinwei Wang, Zheng Guo, Yuanhong Gao, Jue Wang |
| 45–55 | Transamidation of dimethylformamide during alkylammonium lead triiodide film formation for perovskite solar cells | Michael V. Lee, Sonia R. Raga, Yuichi Kato, Matthew R. Leyden, Luis K. Ono, Shenghao Wang, Yabing Qi |
| 56–63 | Excitons in scintillator materials: Optical properties and electron-energy loss spectra of NaI, LaBr₃, BaI₂, and SrI₂ | André Schleife, Xiao Zhang, Qi Li, Paul Erhart, Daniel Åberg |
| 64–72 | Graphene field-effect transistor application-electric band structure of graphene in transistor structure extracted from quantum capacitance | Kosuke Nagashio |
| 73–83 | Polyaniline/multi-walled carbon nanotube composites for structural vibration damping and strain sensing | Weiwei Lin, Yonatan Rotenberg, Kevin P. Ward, Hadi Fekrmandi, Cesar Levy |

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE: REVIEWS

- | | | |
|---------|--|--|
| 84–106 | Recent progress in graphene based ceramic composites: a review | Kalaimani Markandan, Jit Kai Chin, Michelle T.T. Tan |
| 107–127 | 30 years of advances in functionalization of carbon nanomaterials for biomedical applications: a practical review | Neelkanth M. Bardhan |
| 128–142 | Laser-assisted biofabrication in tissue engineering and regenerative medicine | Sangmo Koo, Samantha M. Santoni, Bruce Z. Gao, Costas P. Grigoropoulos, Zhen Ma |

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE

- | | | |
|---------|---|--|
| 143–152 | Self-assembly of virus capsids decorated with block copolymers: a simulation study | Meenakshi Dutt, Leebyn Chong, Sarah Libring, Vyshnavi Karra |
|---------|---|--|

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE: REVIEW

- | | | |
|---------|--|----------------|
| 153–165 | Data-driven understanding of collective carbon nanotube growth by <i>in situ</i> characterization and nanoscale metrology | Mostafa Bedewy |
|---------|--|----------------|

(Continued)

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE

- | | | |
|---------|--|---|
| 166–173 | Direct measurements of <i>quasi-zero</i> grain boundary energies in ceramics | Nazia Nafsin, Ricardo H.R. Castro |
| 174–182 | Tailoring structure and properties of silica glass aided by computer simulation | Liping Huang, Fenglin Yuan, Michael Guerette, Qing Zhao, Siddharth Sundararaman |

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE: REVIEWS

- | | | |
|---------|---|--|
| 183–203 | Thermoelectric and thermal transport properties of complex oxide thin films, heterostructures and superlattices | Jayakanth Ravichandran |
| 204–216 | Investigation of thermal transport in composites and ion beam irradiated materials for nuclear energy applications | M. Khafizov, V. Chauhan, Y. Wang, F. Riyad, N. Hang, D.H. Hurley |

JMR EARLY CAREER SCHOLARS IN MATERIALS SCIENCE ANNUAL ISSUE

- | | | |
|---------|--|--|
| 217–226 | In situ synthesis of cold-rollable aluminum–aluminum nitride composites via arc plasma-induced accelerated volume nitridation | J.I. Lee, E.S. Park |
| 227–238 | Consistent description of hydrogen permeation through metal membrane based on hydrogen chemical potential and its application to alloy design | Asuka Suzuki, Hiroshi Yukawa, Yoshinori Murata |
| 239–247 | Multimodal visualization of the optomechanical response of silicon cantilevers with ultrafast electron microscopy | David J. Flannigan, Daniel R. Cremons, David T. Valley |
