

Clay Minerals

VOLUME 6 · NUMBER 3 · JULY 1966

CONTENTS

R. M. TAYLOR and K. NORRISH. The measurement of orientation distribution and its application to quantitative X-ray diffraction analysis	127
M. M. MORTLAND. Urea complexes with montmorillonite: an infrared absorption study	143
A. G. SEIDOV and KH. A. ALIZADE. The formation and mineralogy of bentonites in Azerbaijan	157
W. BODENHEIMER, L. HELLER and S. YARIV. Organo-metallic clay complexes. VII. Thermal analysis of montmorillonite-diamine and glycol complexes	167
M. J. DUMBLETON and G. WEST. Some factors affecting the relation between the clay minerals in soils and their plasticity	179
D. F. BALL. Chlorite clay minerals in Ordovician pumice-tuff and derived soils in Snowdonia, North Wales	195
P. G. ROUXHET and G. W. BRINDLEY. Experimental studies of fine-grained micas. I. Organic contamination on the surface of wet-ground muscovite	211
P. G. ROUXHET and G. W. BRINDLEY. Experimental studies of fine-grained micas. II. The water content of wet-ground micas	219
Notes	
A. ALIETTI. Identification of disordered kaolinites	229
E. C. JONAS and J. R. KUYKENDALL. Preparation of montmorillonites for random powder diffraction	232
Correction	
J. H. RAYNER. Multivariate analysis of montmorillonite	236
